REPORT OF THE PRESIDENT

October 27, 1916.

TO HIS EXCELLENCY, MARTIN G. BRUMBAUGH,
Governor of Pennsylvania,
Harrisburg, Pennsylvania.

SIR:

The Board of Trustees of the State Hospital of Coaldale have the honor to submit the following report of the operation of that institution for the two years ending May 31, 1916:

During this period there have been several changes in the personnel of the Board—Mr. James Tinley, Mr. Vincent Quinn and Mr. Andrew Breslin having resigned. Their places were filled by the appointment of Mr. Paul W. Houck, Mr. H. I. Silliman and Mr. I. M. Davies. Since the reorganization of the Board, the attendance at all meetings has been very satisfactory, and the Trustees have given their time and thought to the business management of the institution.

The Trustees take this opportunity of commending Dr. E. E. Shifferstine for the capable and efficient manner in which he has performed his duties as Surgeon-in-Chief and Superintendent. He has not only maintained the high reputation of the Hospital for surgical work, but also has shown his business ability by operating the Hospital at a decreased cost per patient, in spite of the fact that the cost of all supplies has increased during this latter period. Every suggestion of the Board has been faithfully and fully carried out, and his high reputation as a surgeon has caused an embarrassing crowding of the Hospital.

In the previous report of the Board, for the biennial period ending May 31, 1914, attention was called not only in the report of President Breslin, but in still further detail in the report of the Superintendent, to the absolute need of increasing the facilities of the Hospital, and making radical changes in the building itself,

in order that the original defects in its construction could be remedied, the overcrowded condition of the wards obviated and proper facilities given for handling cases that should be isolated; also to supplying a pathological and clinical laboratory, in order that the laws of the State might be complied with, and that the institution could obtain the approval of the State officials, so that the internes would be eligible for State examination.

The Board employed an architect to draw up the necessary plans and specifications and presented their request to the Board of Charities, who, while agreeing to the necessity of the changes recommended, suggested that the amounts to be asked of the Legislature be reduced to \$50,970 for maintenance; \$1,119.97 for improvements; \$20,880.03 for kitchen and additional dormitories; \$28,000 for a ward; \$18,000 for an operating room, obstetrical ward and isolation ward; \$2,000 for corridors, and \$5,000 for a boiler house, making a total for buildings and improvements of \$75,000, or a total appropriation of \$125,970. This was \$100,000 less than the amount estimated by the architect as being required to put the Hospital in condition to properly handle its patients. All that the Hospital actually received, however, was \$40,000 for maintenance and \$1,119.97 for improvements.

At the lowest possible per capita cost, the maintenance expenses average about \$2,200 a month, making the total cost \$52,800 for the two years. In addition, out of the appropriation received, it was demanded that pathological and clinical laboratories be equipped, in order to have the Hospital accepted by the State, and enable the management to obtain internes. The Board of Trustees has been obliged, therefore, to continue operating the Hospital with a deficit each month, amounting to the difference between the allowance given by the State and the actual expenditures, and have been unable to make any improvement in the unsanitary conditions.

The kitchen and laundry are located directly below one of the wards, so that odors cannot be kept away from the patients; a high pressure boiler room is under the operating room, and only a small basement room is available for receiving and treating dispensary patients, who have to be handled at the rate of several hundred a day, with no waiting room but the bare corridor, and

with the wards so crowded that it is impossible to classify the patients or to even separate the women and children.

The Coaldale Hospital is located in the middle of the Panther Creek Valley, a mining community with a population of about 50,000, where there is no other important industry but the mining of coal. The mines in this valley have been in operation for one hundred years and with all probability of continuing in operation for one hundred years more.

The miners, recognizing the permanency of the work, have built themselves homes, and on account of the isolated location of this valley, are dependent upon this Hospital for the proper surgical attendance, not only to those who are injured, but also for their wives and children. These miners are financially unable to make expensive trips to Philadelphia or other centers when surgical attendance and hospital treatment is needed.

There is, therefore, in the opinion of the Trustees, an absolute need for a properly equipped hospital, with ample facilities, run by the State, in the midst of this community, which is altogether dependent on the h o s p i t a l facilities furnished them at this institution.

The value of this Hospital is shown by the constantly increasing number of patients. While the institution was built originally to accommodate thirty patients, it is now housing an average of over fifty, and has had as many as seventy-one in its wards.

This number does not consist of a majority of men injured in the mines and on the railroads, but a large proportion is women and children. The work done amongst these classes by Dr. Shifferstine and his assistants has been of inestimable benefit to the poorer families of this valley.

It is the judgment of the Board that the State should appropriate at least \$175,000 for buildings and improvements to put this Hospital in proper operating condition, and the most searching investigation of not only the management of the Hospital, but of all its needs and requirements is solicited, feeling, as we do most strongly, that if such an investigation is made, no objection could be found to the necessary appropriation.

Respectfully submitted,

EDWIN LUDLOW,
President.

REPORT OF THE SURGEON-IN-CHIEF AND SUPERINTENDENT

To the President and Members of the Board of Trustees:

GENTLEMEN: It gives me great pleasure to present herewith my third biennial report for the two fiscal years ending May 31, 1916.

I desire to call attention to the per capita cost which is considerably less than for the preceding two years, although the total amount of the bills has increased. This low cost is due to a greater number of patients treated. The continued advance of supplies and wages of employees indicates that the cost of maintaining patients during the next two years may exceed 25 per cent. This could be considerably minimized if we had adequate storage facilities so that we might buy in larger quantities and consequently at lower prices.

The most serious problems with which we have to deal is the overcrowding of the wards which has often exceeded 100 per cent. Several years ago the Board, realizing the limited capacity of the Hospital and the increasing demands made upon it, limited the class of patients other than those injured as follows:

- (1) Surgery following injuries;
- (2) Acute surgery (appendicitis, hernia);
- (3) Acute diseases (typhoid, pneumonia).

Even this gave only temporary relief, as applications for admission for ailments of a general character have been daily refused. The people of the vicinity have objected to this arrangement, as it excludes many who need medical attention and are unable to pay for it at home.

Provision should be made for a ward in which to treat burned men, also one for women and another for children. The former are now being treated in the general wards with typhoids and other acute diseases. Women and children are still being treated in the same ward.

I also wish to again call attention to the half-story rooms occupied by the nurses and domestics which are located directly under a slate roof and over the wards. During the summer months the heat in them is unbearable and during the winter they are hard to heat. They have no recreation rooms where they can rest while off duty. I ask for them suitable living quarters, as in the circumstances it is impossible to retain help or promote efficiency.

Isolation rooms in which to care for patients suffering from communicable diseases should be provided. While we are always careful not to admit them, it often happens, especially in the children's ward, that these diseases appear so that we are compelled to isolate the entire ward and fumigate the best way we can.

If private rooms, which are being daily refused, could be provided they would be a source of considerable income.

Physicians in the valley have made repeated requests that provision be made for the care of obstetrical cases of poor families.

The kitchen is located in the cellar and is too small. Storage is limited to a medium-sized butcher's refrigerator. The kitchen must also be used as a dining room for the servants.

The boilers are located immediately under the wards, which, on account of dust, smoke, the dangers from explosion and fires, should be removed to a separate building.

The Board of Trustees two years ago did all in its power to give relief by applying for an appropriation sufficient to erect additional buildings, but the Governor found it necessary, on account of insufficient funds, to cut the appropriation. This, however, should not dissuade you from again applying to the next Legislature for an appropriation sufficient to erect the additional wards and thus place within reach of the sick and injured of this locality the best that can be had for their care and comfort.

Extensive repairs are needed inside and outside the building. The wear and tear has been great. It should be painted and the floors replaced. The furniture, too, is showing the effects of hard usage. It is to be hoped that this can be attended to during the next year, as each day's usage increases the cost.

The question of providing an ambulance should have your careful consideration.

There has been a great increase in the number of patients treated in the Dispensary. The number admitted was 2,751 and return visits, 16,385, making a total of 19,136, or an average of 52.28 treated every day in the year. The majority of these were minor surgical cases. When application was made for medical treatment the greatest care was taken to treat only those whom we were reasonably sure needed hospital attention. The balance, including those who were able to pay, were examined and referred to their family physician. Medicines were rarely supplied.

The reports of Head Nurse and the Roentgenologist are herewith appended.

Mr. Bromley Wharton, General Agent and Secretary of the Board of Public Charities, made regular visits to the Hospital and was impressed with its needs and overcrowded condition.

The accounts of the Hospital have been regularly audited by representatives of the Auditor General's Department and have always been found correct.

Due acknowledgment was made by the Superintendent of the donation of \$84.64 made by the Lutheran, Methodist and Baptist Churches of Nesquehoning which was most acceptable.

My thanks are due the clergymen who always respond promptly when called to cheer and minister to the afflicted.

We have received copies of the following newspapers. These are always eagerly looked for by the patients. I wish to thank the editors for them: *Pottsville Journal*, *Reading Eagle*, *Mauch Chunk Daily News*, *Coaldale Observer*, *Toilers' Defense*, *Lansford Record*, *The Truth* (Russian), *The Light* (Russian), *The Trades Union News*.

In conclusion, I wish to thank the Trustees for their kindness to me at all times. Their advice which was often sought was most helpful and encouraging. I hope that this spirit of co-operation and friendship will continue so that the recipients of charity may receive all that is essential for their comfort and restoration to health.

Respectfully,

E. E. SHIFFERSTINE,

Surgeon-in-Chief and Superintendent.

Coaldale, Pa., May 31, 1916.

REPORT OF THE TRAINING SCHOOL FOR NURSES

To the Board of Trustees:

I submit for your consideration the third biennial report of the Training School for Nurses.

Daily lectures and demonstrations were given for a period of nine months during each year. Besides the student nurses receive a special course in Domestic Science, Massage and Swedish Movements.

The Obstetrical course of three months is given each student nurse at the New York Infirmary for Women and Children.

The following nurses have completed a course in practical and theoretical nursing covering a period of two (2) years:

Rose A. Cusick.....	Freeland, Pa.
Kathryn K. Dougherty.....	Hazleton, Pa.
Elsie M. Seltzer.....	Frackville, Pa.
Placida J. Zelinsky.....	Cressona, Pa.
Ella M. Ambrose.....	Pittsburgh, Pa.
Ella C. Pinkey.....	Coaldale, Pa.

The nursing staff consists of:

Head Nurse.....	1
Assistant Head Nurse.....	1
Night Supervisor.....	1
Clinic Nurse.....	1
Senior Nurses.....	3
Junior Nurses.....	2

In conclusion, I wish to thank Dr. Shifferstine and the members of the staff for their very instructive lectures.

Respectfully submitted,

EUNICE M. O'DONNELL, R. N.,
Head Nurse.

FORM OF APPLICATION.

1. What is your name?.....
2. What is your age?.....
3. State date and place of birth.....
4. What is your weight?.....5. Height?.....
6. Are you single, married, divorced or widowed?.....
7. Have you any one dependent on you for support?.....
8. Are you otherwise free from responsibility, so that you are
not likely to be called away during the term of thirty
months?.....
9. Are your teeth and eyes in good condition?.....
10. Are you strong and healthy?.....
11. Have you any physical defects?.....
12. In what schools were you educated?.....
13. What is your present occupation? What have been your
previous pursuits?.....
14. Have you been in any training school or employed in any
hospital or asylum?.....
15. What is your religion?.....
16. Kindly give certificate of health from your family physician.
17. Send the names and addresses of three (3) prominent people
who have known you for more than five (5) years, also the
name and address of your pastor?

I, the undersigned, having read the conditions of admission, clearly understanding and agreeing to them, do declare the above statements to be correct. If accepted as a student I will, in all respects, comply with the Rules and Regulations of the Hospital.

(Signed).....

NOTE: This blank must be filled out in candidate's own handwriting and when properly signed must be returned to the Directress of Nurses. If not desirous of becoming a candidate kindly return blank at once.

INFORMATION FOR APPLICANTS.

The Training School for Nurses of the State Hospital of Coaldale, Penna., will give a two and one-half year course to women desirous of becoming professional nurses. Those wishing to enter training must apply personally or by letter to the Directress of Nurses of the Hospital, who will furnish all necessary information.

The letter of application must be accompanied by a physician's certificate of sound health and unimpaired faculties and three certificates of good character, and name and address of two prominent citizens of the town in which applicant lives.

Applicants must be between the ages of eighteen and thirty years, of good, sound health, including average height and physique. They must be able to read aloud well; to write legibly and accurately from dictation; to understand arithmetic as far as fractions and percentage, and to take notes at lectures. This amount of education is indispensable, but women of superior education are preferred.

Candidates if approved will be received on probation for two months, and if accepted will join the school after signing an agreement to conform to all Rules and Regulations and complete the prescribed course.

The right is reserved to dismiss any pupil from the Training School at any time during the course for inefficiency, misconduct or any unsatisfactory record or any other reason which may be deemed sufficient by the Hospital authorities.

Pupils will be employed on day and night duty in the wards, operating room or any other department of the Hospital to which they may be assigned.

They will be on duty from 6.30 A. M. to 6.30 P. M. Ample time will be allowed them each day for meals, recreation and study. In addition they will be allowed an afternoon each week until 10 P. M. and five (5) hours each Sunday. A vacation of two weeks will be given at the end of first and second years.

Board, laundry and lodging, also a monthly allowance of \$8 per month, will be given each pupil for the first year, and for the second year an increase of \$2 per month will be added.

This allowance is not given in payment for services rendered, but is given for the purchase of the required uniform, textbooks and sundries.

In sickness the pupil will be given all medical or surgical care required, but the time lost must be made up.

The course will cover practical and theoretical instruction in the nursing of medical, surgical and gynecological cases, massage, electricity, dietetics, first aid and fire drill.

Examinations will be held at stated intervals and all pupils must make an average of 75 per cent. in all studies in order to receive the diploma and pin of the Hospital Training School.

REPORT OF ROENTGENOLOGIST

The following is a report of the work done in the X-Ray laboratory to June 1, 1916:

Total number of examinations made.....	550
Comprising the following conditions:	
Fractures or dislocations.....	447
Diseases of bones or joints.....	71
Localizing foreign bodies.....	28
Soft tissues.....	4

The following summary will show the various parts of the body examined:

Head.....	13	Knee.....	33
Shoulder.....	39	Leg.....	66
Arm.....	24	Ankle.....	48
Elbow.....	36	Foot.....	30
Forearm.....	40	Abdomen.....	2
Wrist.....	17	Jaw.....	5
Hand.....	64	Kidney.....	2
Neck.....	5	Clavicle.....	10
Thorax.....	11	Scapula.....	4
Spine.....	9	Pelvis.....	8
Femur.....	34	Hips.....	18

In order to render more efficient service the department should have several new Tungsten targets, a plate holder, an examining table and a large filing cabinet for conveniently preserving the plates.

The addition of special attachments, permitting a thorough examination of the deep soft tissues, high frequency and fluoroscopic apparatus would undoubtedly broaden the field of this department, and are absolutely essential to the efficiency of the laboratory.

W. A. WEAVER, JR., M. D.,
Roentgenologist.

HOUSE CASES

The following is a report of the House Cases treated in the Hospital from June 1, 1914, to June 1, 1915:

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
ABSCESSSES:									
Right cervical, deep.....		2	2						2
Right hand, palmar.....		1	1						1
Right side, mammary.....		1	1						1
Right side, peri-renal.....		1	1						1
Right side, psoas.....		1	1						1
Right prepatella.....		1	1						1
Right ischio-rectal.....		1	1						1

Right hand, with amputation of ring and little fingers.....		1	1						1
Right foot, followed by superficial gangrene of dorsum of right foot....		1	1						1
Right great toe, with severe contusion of dorsum of right foot.....		1						1	1
Left ring and little fingers, with avulsion of skin, dorsal surface of hand..		1	1						1
Left leg, with extensive injury to soft parts and vessels; thrombotic gangrene of left leg; incised wound, right thigh, with partial division of quadriceps extensor muscles.....		1	1						1
Left foot, all toes.....		1	1						1
Both legs at knee; left hand, with traumatic amputation of thumb, ring and little fingers.....		1				1			1
DISLOCATION:									
Both forearms, epiphyseal of radii....		1	1						1
Right ulna at elbow, posterior, with rupture of internal lateral ligaments.		1	1						1
Right ulna and radius at elbow, posterior, complicated by fracture of olecranon process, left ulna and internal condyle of humerus.....		1						1	1
Right wrist, compound, complicated by severance of all extensor tendons of hand.....		1	1						1
Right femur, obturator.....	1		1						1
Left shoulder, subclavicular, and Colles' fracture of right forearm; contusion of face.....		1	1						1
Left femur at head, congenital.....		1			1				1
EARS:									
Otitis media, acute, suppurative, right.		1	1						1
Otitis media, chronic, purulent, right..		1		1					1
Otitis media, suppurative, right, complicated by cellulitis of tissues of right mastoid region and left inguinal hernia (congenital).....		1		1					1
Otitis media, chronic, suppurative, left.		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
ECZEMA:									
Forehead, acute.....		1	1						1
Right leg.....		1	1						1
FOREIGN BODIES:									
Right hand, needle.....		1	1						1
FRACTURE—COLLES':									
Right arm, and ancient laceration of right brow.....		1	1						1
FRACTURE—COMMINUTED:									
Pelvis, with rupture of urethra and bladder, with extensive contusion of soft parts of hips and abdomen; ex- tensive laceration of right leg, ante- rior surface.....		1				1			1
Right clavicle, outer third; epilepsy....		1						1	1
Right femur at neck, intracapsular....		1		1					1
Right femur at neck, complicated by fracture of sixth and seventh left ribs, and general contusion of body..		1	1						1
Right tibia, lower third.....		1						1	1
Right patella.....		1	1						1
Left femur, impacted, intracapsular...		1				1			1
Left tibia, middle third, complicated by punctured wound of calf of left leg.....		1	1						1
FRACTURE—COMPOUND:									
Right humerus, internal condyle, and incised wound of right thigh.....		1	1						1
Right tibia and fibula, complicated by rupture of muscles, and severe con- tusion of right leg.....	1		1						1
Right leg, both bones.....	1		1						1
Right fibula, middle third, with exten- sive crush of calf of right leg.....		1						1	1
Right foot, metatarsal.....		1	1						1
Right great toe.....		1	1						1
Right great toe, distal phalanx, with avulsion of nail.....		1	1						1
Left humerus, compound, of both con- dyles and olecranon process; left ulna, with extensive lacerations of the joint.....	1		1						1
Left ulna, lower third, complicated by laceration of ligaments of wrist joint and flexor muscles of forearm.....	1		1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
FRACTURE—COMPOUND (Continued):									
Left thumb, middle phalanx; multiple, contused lacerations of face, scalp, neck, trunk and upper extremities, with severe, contused lacerations of calf of left leg.		1		1					1
Left tibia.	1		1						1
Left foot, metatarsal.		1	1						1
Left ring finger, proximal phalanx, and metacarpal bone of thumb, with severe contusion and laceration of soft parts of left thumb.	1		1						1
Left great toe.		1	1						1
FRACTURE—COMPOUND, COMMUNUTED:									
Right thumb, index and middle fingers, distal phalanges.		1	1						1
Right leg, both bones, at junction of lower and middle third, with severe contusion of soft parts and lacerations of nose and lower lip.		1		1					1
Right fibula; extensive laceration of right leg, anterior surface.		1	1						1
Right humerus and olecranon, complicated by extensive lacerations of left arm and forearm; simple fracture at junction of upper third of left humerus.		1	1						1
Left femur, lower third; compound fracture, both bones, left leg; simple fracture of right ribs, and severe contusion of abdomen.		1				1			1
Left leg, both bones, lower third, with extensive contusion of soft parts.		2	1	1					2
FRACTURE—COMPOUND, COMMUNUTED, DEPRESSED:									
Skull, vault, complicated by rupture of longitudinal sinus.		1	1						1
Both temporal bones and occipital bone, mastoid processes.		1					1		1
Frontal bone, ancient.		1						1	1
FRACTURE—COMPOUND, DEPRESSED:									
Skull, entire vault.		1					1		1
Nasal bones.		1	1						1
Frontal bone, and multiple contused lacerations of scalp, trunk, upper and lower extremities.		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
FRacture—COMPOUND, DEPRESSED (Continued):									
Fronal bone; fracture of base of skull; compound fracture of nasal bones, and extensive laceration of mucous membrane of lower lip.....		1					1		1
Frontal bone.....		1	1						1
Frontal bone, involving frontal sinus; compound fracture of lower jaw, with extensive laceration of face, upper and lower lips.....		1	1						1
FRacture—DEPRESSED:									
Skull, entire vault; gas burns of face, neck, chest, both arms and forearms, and numerous lacerations of face....		1					1		1
FRacture—GREENSTICK:									
Right forearm, both bones.....		1	1						1
Right femur, middle third.....		1						1	1
Left femur at junction of upper and middle third.....		1	1						1
Left tibia, upper third.....		1	1						1
FRacture—POTTS':									
Right leg.....		1	1						1
Left leg.....		3	2	1					3
FRacture—SIMPLE:									
Fourth cervical vertebra; compound, comminuted fracture of condyles of left humerus, and lacerations of scalp.....		1					1		1
Ninth, tenth and eleventh dorsal verte- brae, followed by complete para- plegia; fracture of lower six ribs of left side, complicated by puncture of left lung.....	1					1			1
Right clavicle, outer third.....		3	3						3
Right clavicle, outer third, and acute alcoholism.....		1	1						1
Right clavicle, outer third, with rup- ture of right sterno-clavicular liga- ments.....		1	1						1
Right clavicle, outer third, with per- foration of right lung; traumatic emphysema of tissues of neck, chest and abdomen; general contusions of body.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
FRACTURE—SIMPLE (Continued):									
Right clavicle, outer third; deep laceration of right palm, and multiple, ancient fractures of right elbow....		1		1					1
Right humerus, both condyles, and fracture of olecranon process of right ulna.....		1						1	1
Right humerus, internal condyle.....		1	1						1
Right forearm, both bones, lower third, ancient, unreduced.....		1	1						1
Right forearm, both bones, lower third, and fracture of upper third of right ulna (bilateral inguinal hernia).		1						1	1
Right ribs, with emphysema of chest...		1	1						1
Right ribs, and contusion of chest....		1	1						1
Right third and fourth ribs, and rupture of right sterno-clavicular ligaments.....		1	1						1
Right fifth rib; contusion of back and right thigh.....		1	1						1
Right eleventh rib, and traumatic pleurisy.....		1	1						1
Right pubic bone, ascending ramus, complicated by punctured wound of supra-pubic region.....		1	1						1
Right ilium at brim.....		1	1						1
Right femur, lower third, complicated by extensive injury to soft parts....		1						1	1
Right femur, upper third, and laceration of scalp.....		1	1						1
Right femur, upper third, oblique, with extensive contusion of soft parts...		1	1						1
Right femur at junction of lower and middle third, and laceration of scalp	1		1						1
Right femur at junction of lower and middle third, oblique.....		1	1						1
Right patella, transverse.....		1	1						1
Right tibia and fibula, lower third; both condyles of right femur, complicated by rupture of capsule of knee joint, and severe contusion of thigh.		1		1					1
Right leg, both bones, lower third....		1	1						1
Right tibia and fibula, lower third, oblique.....		1		1					1
Right tibia, lower third, and upper third of fibula.....		1	1						1
Right tibia, upper third, complicated with severe contusion of knee and thigh.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
FRACTURE—SIMPLE (Continued):									
Right tibia, middle third, with rupture of external and internal lateral ligaments.....		1	1						1
Right fibula, middle third, with extensive injury to right calf.....		1						1	1
Right fibula, lower third, with rupture of external lateral ligaments.....		1	1						1
Right ankle, external malleolus.....		1	1						1
Right ankle, external malleolus, with extensive periostitis of right tibia....		1		1					1
Right ankle, internal malleolus, with rupture of internal lateral ligaments, and extensive contusion of soft parts		1		1					1
Right third, fourth and fifth metatarsal bones.....		1	1						1
Right tarsus.....		1	1						1
Left clavicle, outer third, and third, fourth and fifth left ribs, penetrating lung.....		1	1						1
Left clavicle, outer third.....		2	2						2
Left humerus, internal condyle, with posterior dislocation.....		1	1						1
Left humerus, surgical neck.....		1	1						1
Left humerus, anatomical neck, with extensive contusion of left shoulder (hemorrhoids).....		1	1						1
Left humerus, middle third, with extensive contusion of soft parts.....		1	1						1
Left forearm, both bones, lower third.		2	2						2
Left ulna and radius, at junction of lower and middle third.....		1	1						1
Left ulna, upper third, with rupture of capsular ligaments of head of left radius.....		1	1						1
Left ulna, ancient, unreduced.....		1	1						1
Left third and fourth ribs, with puncture of left lung, and traumatic emphysema of tissues of chest, neck, face and abdomen.....		1	1						1
Left eleventh and twelfth ribs.....	1		1						1
Left femur, internal condyle, with severe contusion of knee joint.....	1		1						1
Left femur, upper and middle third, at junction.....	1		1						1
Left femur, lower third, with severe contusion of soft parts.....		1	1						1
Left knee, internal condyle, and severe contusion.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
FRACTURE—SIMPLE (Continued):									
Left leg, both bones, middle third.....		1						1	1
Left leg.....	1		1						1
Left leg, both bones, middle third, with severe contusion of soft parts..		1	1						1
Left tibia, at junction of lower and middle third.....	1		1						1
Left tibia, internal malleolus, with rupture of internal and external lateral ligaments.....		1	1						1
Left tibia, middle third, ancient, un- united.....		1	1						1
Left fibula.....		1	1						1
Left ankle, internal and external mal- leoli, with severe injury to joint and severe contusion of left knee.....		1	1						1
HERNIA:									
Right side, strangulated, femoral, epiphlocele.....	1		1						1
Right side, strangulated, inguinal.....		1					1		1
Right side, traumatic, inguinal.....		1	1						1
Right side, inguinal, ancient, indirect (senility).....		1	1						1
Left side, inguinal, irreducible (epiph- locele).....		1	1						1
Left side, inguinal.....	1		1						1
NECROSIS:									
Left mandible, entire body.....		1	1						1
Left middle finger, distal phalanx, with abscess.....		1	1						1
Left index finger, metacarpal bone, extensive, complicated by suppurative cellulitis		1	1						1
ORGANS OF VISION:									
Conjunctivitis, phlyctenular, of both eyes.....		1	1						1
Conjunctivitis, suppurative, of both eyes.....		1	1						1
Dachryocystitis and conjunctivitis, suppurative, of right eye.....		1	1						1
Keratitis, interstitial, and diffuse con- junctivitis of left eye (syphilitic)...		1	1						1
Keratitis, interstitial, of left eye (syphilitic).....		3	3						3
Ptergium of both eyes.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
PERIOSTITIS:									
Right tibia.....		1	1						1
Left tibia, lower third, traumatic.....		1	1						1
Left fibula, traumatic, following ancient contusion.....		1	1						1
SEPARATION:									
Upper lip, complete; laceration of lower lip, and punctured wound of right hand.....		1	1						1
Sacroiliac joint, following squeeze.....		1	1						1
Right humerus and elbow, epiphyseal.		1	1						1
SPRAIN:									
Right knee joint, internal lateral ligaments, severe.....		1			1				1
Right ankle, severe.....		2	2						2
Left ankle, severe.....		3	3						3
SYNOVITIS:									
Right knee, suppurating.....		1	1						1
Right knee joint, acute, traumatic.....	1	2	3						3
Left knee, traumatic.....	1		1						1
ULCERS:									
Right eye, traumatic, corneal....		1	1						1
Left cornea, traumatic, with traumatic conjunctivitis of entire left eye.....		1		1					1
Left eye, traumatic, corneal.....		2	2						2
Left leg, extensive, following burns.....	1		1						1
Left ankle, inner surface, specific.....		1					1		1
Left foot, plantar surface, trophic.....		1					1		1
Left foot, traumatic.....		1	1						1
WOUNDS—GUNSHOT:									
Face; penetrating wound of left eyeball, and compound, comminuted fracture of left malar bone.....		1		1					1
Right hand (blank cartridge).....		1	1						1
Right thigh.....		1	1						1
Left hand, with complete avulsion of thumb; compound fracture of carpal bones, metacarpal bone of index finger, and injury to wrist joint.....		1	1						1
Left thigh, penetrating.....		1	1						1
Submental region, penetrating, involving floor of mouth, tongue and superior maxilla.....		1	1						1
Buttocks, posterior surface of both thighs and legs, numerous.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
WOUNDS—GUNSHOT (Continued):									
Both legs and thighs, penetrating.....		1						1	1
Back, left shoulder and left arm, with penetration of peritoneum and left pleura.....		1	1						1
WOUNDS—INFECTION:									
Right forearm, deep, with extensive lymphangitis.....		1	1						1
WOUNDS—INCISED:									
Forehead, left upper eyelid, left cheek and left side of upper lip.....		1	1						1
Throat, left side, extensive.....		1	1						1
Both wrists, with division of extensor tendon and right radial artery.....		1	1						1
Left knee.....		1	1						1
WOUNDS—LACERATIONS:									
Scalp, extensive.....		3	3						3
Scalp, and general contusion of back..		2	2						2
Scalp, extensive, with contused laceration of right index finger.....		1	1						1
Scalp, and oblique fracture of middle third of right femur.....		1					1	1	1
Scalp, and simple fracture of middle third of left fibula.....		1	1						1
Scalp, hematoma, following contusion of calf of left leg.....		1					1	1	1
Face, hands, numerous; numerous foreign bodies, both eyes; lacerations of both corneas, and hemorrhage into anterior chambers of both eyes, following explosion of dynamite.....		1	1						1
Perineum.....		1	1						1
Perineum; left lateral laceration of cervix.....		1	1						1
Right supraorbital region and nose; contused laceration of right knee, and Pott's fracture of right ankle...		1	1						1
Right cheek, ancient.....		1	1						1
Right cheek, extensive, involving buccal mucous membrane; laceration of upper lip; compound, comminuted fracture of mandible; contusion of left hip; concussion.....		1	1						1
Right arm and forearm, involving triceps muscles, extensive.....		1		1					1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
WOUNDS—LACERATIONS (Continued):									
Right forearm, extensive.....		1	1						1
Right forearm, extensive, involving entire circumference.....		1	1						1
Right hand, with division of flexor tendons of middle finger.....		1	1						1
Right thigh, extensive, with partial division of extensor muscles.....		1	1						1
Right knee, involving capsular ligament of joint.....	1	1	2						2
Right heel.....		1	1						1
Right foot, extensive.....		2	2						2
Left temporal region, deep (acute alcoholism).....		1	1						1
Left cheek, extensive.....		1	1						1
Left forearm, deep, with complete division of flexor palmaris longus and carpi radialis.....		1	1						1
Left wrist, deep, with complete division of extensor carpi radialis, longior and brevior.....		1	1						1
Left thigh.....		1	1						1
Left knee, extensive.....		1	1						1
Left leg, extensive, involving muscle, and severe contusion of right leg. ..		1	1						1
WOUNDS—LACERATED AND CONTUSED:									
Scalp, extensive.....		1	1						1
Scalp, right ear and back, multiple....		1	1						1
Forehead and scalp, extensive, with severe contusion of left shoulder and thigh.....		1	1						1
Face, neck, chest and arms, multiple, with traumatic conjunctivitis of right eye, and traumatic keratitis and conjunctivitis of left eye, with powder burns, third degree, of right arm and chest.....		1					1		1
Right cheek and over right eye.....		1	1						1
Left leg, posterior surface, extensive....		1	1						1
Left leg, internal surface.....		1	1						1
Left foot.....		1	1						1
WOUNDS—LACERATED AND INFECTED:									
Scalp, ancient, with extensive traumatic periostitis of right parietal bone (chronic squamous eczema of left leg).....		1		1					1
Right knee.....		1	1						1
Right foot, ancient.....		2	2						2

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
WOUNDS—LACERATED, CONTUSED AND INFECTED:									
Left foot, ancient		1	1						1
WOUNDS—PENETRATING:									
Skull and right temporal region.....		1	1						1
Right knee joint.....		1	1						1
Right foot (nail).....		1	1						1
Left eyeball, with avulsion of left lower eyelid.....		1		1					1
Left arm, with extensive injury to biceps muscles.....		1	1						1
WOUNDS—PERFORATING:									
Scalp, face, neck and chest, multiple, due to explosion of dynamite.....		2				1	1		2
WOUNDS—PUNCTURED:									
Right lumbar region (nail).....		1	1						1
Right infraclavicular region.....		1	1						1
Right hand.....		1	1						1
Right thigh (pick).....		1	1						1
Right foot (nail).....		6	6						6
Left eyeball and foreign bodies and burns, right eye, due to explosion of dualin.....		1	1						1
Left cornea, with foreign body (steel) in left eye; traumatic conjunctivitis.		1		1					1
Left eye, outer canthus, with compound, comminuted fracture of orbital process of left malar bone.....		1	1						1
Left knee, involving bursa.....		1	1						1
Left foot (nail).....		2	1					1	2
Abdomen, complicated with prolapse of omentum.....	1		1						1
WOUNDS—PUNCTURED AND CONTUSED:									
Right elbow, outer surface		1	1						1
WOUNDS—PUNCTURED AND INFECTED:									
Right knee (needle).....		1	1						1
MISCELLANEOUS:									
Abortion, incomplete		1	1						1
Abortion, inevitable.....	1	4	5						5
Adenitis, bilateral, cervical, and acute eczema of scalp.....		1						1	1
Adenitis, acute, cervical.....	1		1						1
Adenitis, right femoral, suppurative...		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
MISCELLANEOUS (Continued):									
Adenitis, extensive, suppurative, right side, complicated by acute, suppurative otitis media of right ear.....		1						1	1
Adenitis, inguinal, right side.....	1	1	2						2
Adenitis, left submaxillary.....		1	1						1
Adenitis, cervical, carious, left side...		1	1						1
Adenitis, inguinal, left side, following infected laceration of great toe.....		1	1						1
Admitted with mother.....		3	3						3
Alcoholism, acute.....		2		2					2
Alcoholism, acute; lacerated and contused wounds of forehead.....		1	1						1
Anemia, secondary (puerperal); chronic, diffuse nephritis.....		1						1	1
Anemia, pernicious.....		1		1					1
Appendicitis, catarrhal.....			1						1
Appendicitis, chronic, catarrhal.....		2	2						2
Appendicitis, gangrenous.....		2	2						2
Appendicitis, chronic, gangrenous....		1	1						1
Appendicitis, perforating, gangrenous..		2	2						2
Appendicitis, perforating, gangrenous, with peritonitis.....		1	1						1
Appendicitis, ruptured, gangrenous....		3	1					2	3
Blood clot, organized, of external maleolus, following ancient rupture of external lateral ligaments.....		1	1						1
Bronchitis, acute.....		3	2		1				3
Bronchorrhea.....		1		1					1
Brush burn of left shoulder and left forearm, with contusion of legs and trunk.....		1	1						1
Carbuncle of neck, with diffuse, suppurative cellulitis of all tissues of scalp and neck.....		1						1	1
Carcinoma, involving abdominal and pelvic organs.....		1			1				1
Carcinoma, gastric.....		2			1		1		2
Caries, tuberculous, of lumbar vertebrae, complicated by bilateral psoas abscess.....		1		1					1
Cecitis, acute.....		1	1						1
Cecitis, chronic, catarrhal.....		2	2						2
Cholelithiasis, recurrent, with chronic cholecystitis.....		1		1					1
Cholelithiasis, acute, and associated cholecystitis.....		1		1					1
Chorea.....		1	1						1
Cirrhosis, alcoholic.....		1		1					1
Cirrhosis of liver, mitral regurgitation and edema of both legs.....		1		1					1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
MISCELLANEOUS (Continued):									
Coccyalgia, right side.....		1	1						1
Colitis, mucous, complicated by pregnancy.....		1	1						1
Coma, uremic; chronic, interstitial nephritis.....		1		1					1
Congenital imperforate rectum.....		1	1						1
Congenital complete absence of rectum and sigmoid; solitary kidney and malposition of bladder.....		1				1			1
Constipation, chronic (mustard burn of abdomen).....		1	1						1
Constipation, chronic.....		2	2						2
Contraction, cicatricial, left little finger		1	1						1
Convulsions, following intestinal toxemia.....		1	1						1
Cyst, massive, of right ovary.....		1			1				1
Cyst, traumatic, of right wrist, following ancient, partial division of extensor tendons of thumb.....		1	1						1
Cystitis and chronic prostatitis.....		1	1						1
Debility, senile; partial right hemiplegia.....		1		1					1
Delirium tremens.....		1	1						1
Delirium tremens, threatened.....		1	1						1
Diabetes insipidus; hysterical polyuria		1		1					1
Diabetes mellitus.....		1			1				1
Dysmenorrhea.....		1	1						1
Eclampsia, post-partum, fulminating..		1					1		1
Edema of right cheek, following ancient, compound, depressed fracture of right frontal bone.....		1	1						1
Edema of left lumbar region, following traumatism.....		1	1						1
Effusion, traumatic, of left knee joint.		1	1						1
Empyema, recurrent.....		1	1						1
Empyema, left side.....	1		1						1
Empyema, chronic, and gastroenteritis.....		1				1			1
Empyema, left side, secondary.....		1	1						1
Endocarditis, acute.....		1		1					1
Endocarditis, chronic.....		2		2					2
Endocarditis, rheumatic; rheumatic polyarthritis, complicated by chronic, interstitial nephritis.....		1						1	1
Endometritis, chronic.....		2		2					2
Endometritis and vaginitis, acute.....		1		1					1
Enteritis, acute.....		6	6						6

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
MISCELLANEOUS (Continued):									
Hemorrhoids, external.....		1	1						1
Hydrocele, congenital, of right side...		1	1						1
Hydrocele, traumatic; phimosis.....		1	1						1
Hypospadia.....		1		1					1
Iliocolitis.....		1	1						1
Impacted feces.....		1	1						1
Indigestion, intestinal.....		1	1						1
Infestation of intestines, parasitic (ti- nea solium).....		1		1					1
Influenza, acute.....		1	1						1
Ingrown toenails of both great toes....		1	1						1
Intoxication, intestinal.....		3	2					1	3
Intoxication, intestinal auto.....		3	3						3
Jaundice, toxemic, obstructive; chole- cystitis and toxic nephritis, with complete anuria, following typhoid fever.....		1	1						1
Lumbago, acute.....		1	1						1
Lumbago and chronic nephritis.....		1		1					1
Luxation of left humerus, subglenoid..		1	1						1
Luxation, anterior, of left semilunar bone, and interarticular cartilage of left wrist.....		1	1						1
Lymphangitis, right thigh.....		1	1						1
Marasmus.....		1				1			1
Mastoiditis, chronic, right side, follow- ing scarlet fever.....	1		1						1
Meningitis, cerebral, spinal.....		1			1				1
Meningitis, following concussion of brain.....		1				1			1
Meningitis, spinal.....		1				1			1
Methane poisoning.....		1	1						1
Myelitis, with beginning sclerosis (syph- ilitic).....		1	1						1
Myositis, acute, of right thigh.....		1	1						1
Nephritis, acute.....	1	1	1						1
Nephritis, paracentesis, acute.....		1	1	1					1
Nephritis, acute, parenchymatous.....		1							1
Nephritis, chronic, diffuse.....		1		1					1
Nephritis, chronic, diffuse; aortic and mitral insufficiency; alcoholic cir- rhosis of liver, with toxemic obstruc- tive jaundice.....		1				1			1
Nephritis, chronic, interstitial.....		2				2			2
Neuralgia, intercostal; chronic, diffuse nephritis.....		1		1					1
Orchitis, traumatic.....		1	1						1
Paralysis, post-diphtheritic.....		1			1				1

MISCELLANEOUS (Continued):									
Tuberculosis, chronic, caseous (pulmonary).....		1		1					1
Tuberculosis, c h r o n i c, suppurating, with cavity formation and aortic regurgitation.....		2			2				2
Tuberculosis, chronic, p u l m o n a r y (caseous).....		1		1					1
Tuberculosis, right renal.....		1		1					1
Tuberculosis, left renal.....		1		1					1
Tuberculosis, acute, of right hip joint, following injury.....		1		1					1
Tuberculosis of both lungs, ulcerative, with cavity formation, complicated by tuberculous laryngitis.....		1				1			1
Typhilitis, chronic; appendicitis (tuberculous).....		1	1						1
Typhilitis, acute, catarrhal.....		1	1						1
Typhilitis, catarrhal.....		1	1						1
Typhoid fever.....		6	5			1			6
Uremia.....	1			1					1
Urinary retention, with suppurative cystitis, due to hypertrophy of prostate glands.....		1	1						1
Varicose veins of both legs.....		1		1					1
Varicose veins of right leg, thromboid..		1	1						1
Vicious union, of ancient greenstick fracture of left femur, lower third....		1	1						1
Vicious union, following Colles' fracture of left forearm, with ankylosis of all finger joints and partial fracture of elbow.....		1		1					1
Vomiting, pernicious, due to toxemia of pregnancy.....		1				1			1

DISPENSARY CASES

The following is a report of the Dispensary Cases treated in the Hospital from June 1, 1914, to June 1, 1915:

DIAGNOSIS	Male	Female	Total
AMPUTATION:			
Right hand.....	1		1
Right index finger.....	1		1
Right index, middle ring and little fingers; contused laceration of right hand, ancient.....	1		1
Right middle finger, traumatic.....	1		1
Right middle finger, following crush.....	1		1
Right ring finger.....	1		1
Left thumb, distal.....	1		1
Left middle finger, ancient.....	1		1
ABSCESSSES:			
Right ear.....		1	1
Right shoulder.....		1	1
Right forearm.....	1	1	2
Right wrist.....	1		1
Right hand.....	4		4
Right thumb.....	1		1
Right superclavicular.....		1	1
Right cervical.....	3		3
Right knee.....	1		1
Right popliteal space.....	1		1
Right leg.....		1	1
Right axilla.....	1		1
Right foot.....	1		1
Left cheek.....	1		1
Left submaxillary region.....	3		3
Left cervical.....	2		2
Left arm.....		1	1
Left forearm.....		1	1
Left elbow.....	1		1
Left hand, palmar.....	1		1
Left lumbar region.....	1		1
Left inguinal region.....	1		1
Neck.....	2		2
Neck and right hand.....		1	1
Chin.....	1		1
Peritonsillar.....	2		2

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
ABSCESSSES (Continued):			
Upper lip.....	1		1
Alveolar.....	1		1
Sacrum.....	1		1
ARTHRITIS:			
Right arm, traumatic.....		1	1
Right wrist, rheumatic.....		3	3
Right knee, hip.....	1		1
Left shoulder, chronic, rheumatic.....	2		2
Left shoulder, following ancient contusion.....	1		1
Left arm, rheumatic.....	1		1
Left knee, rheumatic.....	2		2
Left knee, traumatic.....	1		1
Left ankle, traumatic.....	1		1
AVULSION:			
Right thumb nail.....	1		1
Right index finger nail.....		1	1
Right index finger nail, and laceration of finger.....	1		1
Right middle finger.....	1	1	2
Right middle finger nail.....	1		1
Right middle and ring finger nails.....	1		1
Right ring finger nail.....	5	1	6
Right little finger.....	2		2
Right little finger nail, and laceration of finger.....	1		1
Left thumb nail.....	5		5
Left middle finger nail.....	4		4
Left middle finger nail, and laceration of finger.....	1		1
Left little finger nail.....	3		3
Left great toe nail.....	1		1
ANKYLOSIS:			
Left shoulder, following fracture.....	1		1
Left elbow, following ancient, non-reduced fracture at head of right radius.....	1		1
Left knee, following ancient injury.....		1	1
BURNS BY CHEMICALS:			
Right ear, neck and face.....	1		1
Right breast.....		1	1
Left cheek, third degree.....		1	1
Left hand, dorsum, ancient.....	1		1
Neck.....		1	1
BURNS BY ELECTRICITY:			
Right hand and thumb.....	1		1
Face and right eye, ancient.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
BURNS BY ELECTRICITY (Continued):			
Both ears, second degree.....	1		1
BURNS BY FIRE:			
Right upper eyelid.....	1		1
Right cervical region, third degree.....	1		1
Right arm.....	1		1
Right arm, thigh and back.....	1		1
Right forearm.....	3		3
Right wrist, second degree.....	1		1
Right hand.....		2	2
Right hand and forearm.....	1		1
Right foot, ancient.....		1	1
Left arm.....	1		1
Left wrist, ancient.....		1	1
Both buttocks and right wrist, third degree.....	1		1
BURNS BY GAS:			
Right scapular region, second degree.....	1		1
Right forearm.....	1		1
Left forearm.....	1		1
Left wrist, ancient, third degree.....	1		1
Left hand.....	2		2
Face and ears, ancient.....	1		1
Face, neck, both ears and both hands.....	1		1
Face, neck, back and both forearms, ancient.....	3		3
Face, neck and right hand, second degree.....	1		1
Face, neck and both hands, ancient.....	2		2
Face and hands, ancient.....	2		2
Face.....	1		1
Neck, back and hands.....	1		1
Both forearms and back.....	1		1
BURNS BY SUN:			
Face, neck, chest, back and both arms.....	11		11
Face and both arms.....	1		1
BURNS BY HOT WATER:			
Right cervical region and right cheek, second degree...	1		1
Right wrist.....	1	1	2
Right hand.....	1		1
Right thigh.....	2		2
Right second and third toes.....		1	1
Left forearm.....	1		1
Left middle finger.....	1	1	2
Left leg.....	3		3
Left leg, thigh and forearm, second degree.....	1		1
Both thighs and buttocks.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
BURSITIS:			
Right elbow, infected.....	1		1
Right elbow, traumatic.....	1		1
Right knee.....	1		1
Left elbow.....	1		1
Left knee, traumatic, prepatella.....		1	1
CELLULITIS:			
Right cheek, following ancient enucleation of right eye	1		1
Right arm.....	1		1
Right arm and forearm, with impetigo contagiosa.....	1		1
Right hand, suppurative.....	3		3
Right hand.....	1		1
Right hand and thumb, following contused laceration...	1		1
Right index finger, suppurative.....	3		3
Right middle finger, suppurative.....	3		3
Right ring finger, suppurative.....	1		1
Right side.....	1		1
Right leg.....	2		2
Left arm, and ancient laceration and infection, left middle finger.....	1		1
Left elbow, suppurative.....	3		3
Left hand, suppurative.....	1		1
Left index finger, chronic.....		1	1
Left index finger, suppurative.....	1		1
Left ring finger, suppurative.....	1		1
Left ring finger and dorsal surface of hand.....	1		1
Left foot and ankle.....	1		1
CONCUSSION:			
Spine.....	1		1
Cerebral, ancient, severe.....	1		1
CONTUSION:			
Right eye.....	3		3
Right eye and cheek, with fracture of right malar bone	1		1
Right cheek.....	2		2
Right malar region and nose.....	1		1
Right shoulder.....	6	2	8
Right shoulder, ancient.....	1	1	2
Right shoulder, muscles, with injury to joint.....		1	1
Right shoulder and elbow.....	1		1
Right shoulder, with partial paralysis of circumflex....	2	1	3
Right arm, severe.....	2	1	3
Right forearm.....	1		1
Right forearm, with hematoma.....	1		1
Right elbow.....	2	2	4

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
CONTUSION (Continued):			
Right elbow, with fracture at head of right radius.....	1		1
Right hand, severe.....	4		4
Right hand, and avulsion of middle finger nail.....	1		1
Right thumb.....	2		2
Right index finger.....	2		2
Right middle finger, severe, and avulsion of nail.....	2		2
Right middle and index fingers, severe.....	1		1
Right ring finger.....	2		2
Right hip.....	1		1
Right leg.....	1		1
Right knee.....	4		4
Right ankle.....	2		2
Right ankle, ancient.....	1		1
Right foot.....	4		4
Right great toe.....	4		4
Right great toe, severe, with avulsion of nail.....	1		1
Left eye.....	8		8
Left ear.....		1	1
Left cheek.....	1		1
Left cheek, and traumatic conjunctivitis of left eye....	3		3
Left shoulder.....	5	1	6
Left shoulder, ancient.....	2		2
Left arm.....	1		1
Left forearm.....	1		1
Left hand.....	4		4
Left hand, with laceration of ring finger.....	1		1
Left thumb.....	1		1
Left popliteal space.....	1		1
Left index and right middle fingers.....	1		1
Left index finger, with extensive injury to joint.....	1		1
Left middle finger.....	2		2
Left thigh.....	1		1
Left leg.....	1		1
Left knee, ancient.....	2		2
Left ankle.....	2		2
Left great toe.....	2		2
Head.....	1		1
Head, with concussion of brain.....	1		1
Head and face.....	1		1
Face.....	1	1	2
Face, with chronic conjunctivitis, left eye.....		1	1
Nose.....	3	2	5
Upper lip.....	2		2
Chest.....	6		6
Chest, ancient.....	1		1
Chest and face, right side.....	2		2
Chest, ancient, and hemoptysis.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
CONTUSION (Continued):			
Chest and right arm.....	1		1
Back.....	7		7
Back and buttocks.....	1		1
Abdomen, severe.....	2		2
Body.....	1		1
Hips.....	1		1
Pelvis, ancient.....	2		2
Sacral region.....	1		1
CRUSH:			
Right index finger.....	5		5
Right index and middle fingers.....	1		1
Right index and middle fingers; fracture of distal phalanx.....	1		1
Right index, middle and ring fingers.....	1		1
Right middle finger.....	3		3
Right middle finger, and avulsion of nail.....	1		1
Right middle and ring fingers, and avulsion of nails...	1		1
Right ring finger.....	1		1
Right ring and little fingers.....	1		1
Right little finger, infected.....	1		1
Left hand.....	1		1
Left index finger.....	3		3
Left middle finger.....	2		2
Left middle finger, with avulsion of nail.....	1		1
Left middle finger, with compound fracture of distal phalanx.....	1		1
Left little finger.....	1		1
Left foot.....	1		1
Left great toe.....	1		1
DISLOCATION:			
Right wrist, both bones.....	1		1
Right thumb, ancient.....	1		1
Right knee, ancient.....	1		1
Left shoulder, superclavicular.....	1		1
Left humerus.....	1		1
Left thumb.....	1		1
Left middle finger.....	1		1
Left hip, congenital.....	1		1
EARS:			
Impacted cerumen, right ear.....	5		5
Impacted cerumen, both ears.....	3	2	5
Myringitis, acute, of right ear.....		1	1
Myringitis, both ears.....	1		1
Otorrhea, right.....	2	1	3

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
EARS (Continued):			
Otalgia, right.....		1	1
Otitis media, right.....	2	5	7
Otitis media, purulent, right.....	1		1
Otitis media, suppurative, right.....		2	2
Otitis media, chronic, purulent, left.....	1		1
Otitis media, chronic, left.....	3	1	4
Otitis media, purulent, left.....	1		1
Otitis media, left.....	2		2
Otitis media, purulent, of both, and intestinal parasites	1		1
Otitis media, both.....		1	1
Otitis media, chronic, purulent, of both.....	2		2
Otitis media, chronic, of both.....	4		4
ECZEMA:			
Head, seborrhaic.....	2		2
Head.....	1		1
Scalp, pustular.....	1		1
Scalp and ears, rhubrum.....		1	1
Face, fissure.....	1		1
Face, pustular and thrush.....	1		1
Face.....	5	8	13
Face, acute.....	3		3
Face, pustular.....	3		3
Face, rhubrum.....		1	1
Face, with acute conjunctivitis and interstitial keratitis, right eye.....	1		1
Face and neck.....	1	1	2
Face and scalp, acute.....	2	1	3
Face, scalp and body, acute, rhubrum.....		1	1
Face, neck, arms and body.....	1		1
Face, arms and forearms, rhubrum.....		2	2
Face and both legs.....		2	2
Body.....	1	2	3
Hands, chronic, squamous.....		2	2
Hands, acute.....		1	1
Left forearm.....		1	1
Left leg and foot.....		1	1
Both legs.....		2	2
FOREIGN BODIES:			
Right eye, coal.....	9		9
Right nostril.....	1		1
Right hand, needle.....		2	2
Right thumb.....		1	1
Right index finger.....	3		3
Right middle finger, splinter under nail.....	1		1
Right foot.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
FOREIGN BODIES (Continued):			
Left eye, coal.....	8		8
Left eye, steel.....	1		1
Left ear, coal.....	1		1
Left hand, needle.....		1	1
Left index finger, splinter.....	1		1
Left thigh, wood.....	1		1
Left great toe.....		1	1
Stomach, pin.....	1		1
FRACTURE—COLLES':			
Right arm.....	3	1	4
Left arm.....		1	1
Left arm, ancient.....		1	1
FRACTURE—COMMUNUTED:			
Right clavicle, outer third, and epilepsy.....	1		1
Right humerus, at head, ancient.....		1	1
Left clavicle, middle third.....	1		1
FRACTURE—COMPOUND:			
Nasal bones, ancient, depressed.....	1		1
Right thumb.....	1		1
Right index finger, ancient.....	1		1
Right middle finger, with partial division of tendons...	1		1
Right great toe.....	2		2
Right great toe, ancient.....	1		1
Left ulna, ancient.....	2		2
Left little finger.....	1		1
FRACTURE—GREENSTICK:			
Right external malleolus.....	1		1
Right forearm, both bones.....	1	1	2
Left forearm, both bones.....		1	1
Left ulna.....	1		1
FRACTURE—POTT'S:			
Right leg, ancient.....	1	1	2
FRACTURE—SIMPLE:			
Skull, vault, ancient.....	1		1
Nose, and severe contusion.....	1		1
Nose, laceration of face and contusion of chest.....	1		1
Coccyx, ancient.....	1		1
Right ear, ancient.....	1		1
Right clavicle, middle third.....	2		2
Right scapula, coricoid process.....	1		1
Right humerus, supracondylar.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
FRACTURE—SIMPLE (Continued):			
Right humerus, internal condyle.....	2		2
Right humerus, neck, ancient.....		2	2
Right forearm, both bones, with general contusion of body.....		1	1
Right ulna, lower third.....	1		1
Right radius.....	1		1
Right semilunar bone, ancient.....	1		1
Right wrist, ancient.....	1		1
Right index, middle and ring fingers, carpal bones.....	1		1
Right little finger.....	1		1
Right leg, both bones, ancient.....	1		1
Right femur, ancient.....	3		3
Right tibia, middle third, ancient.....		1	1
Right tarsal bones.....	1		1
Right great toe, ancient.....	1		1
Right fourth rib.....	1		1
Right sixth rib.....	1		1
Right seventh and eighth ribs.....	1		1
Right eighth rib, ancient.....	1		1
Right tenth rib.....	1		1
Right tenth rib, with contusion.....	1		1
Left clavicle, outer third, and contusion of right tibial region.....	1		1
Left clavicle.....	2	1	3
Left scapula.....	1		1
Left forearm, both bones, ancient.....	3		3
Left humerus, neck.....	1		1
Left humerus, internal condyle.....	2		2
Left wrist, ancient.....		1	1
Left hand, carpal bones.....	2		2
Left radius.....	1	1	2
Left thumb, metacarpal.....		1	1
Left little finger.....	1		1
Left femur at neck, probable.....		1	1
Left tibia, ancient.....	1		1
Left tibia.....	1		1
Left tibia, ancient, and contusion of knee.....	2		2
Left sacro-iliac joint, ancient.....	1		1
Left great toe, metatarsal.....	1		1
Left sixth rib.....	1		1
Left seventh rib.....	1		1
Left seventh and eighth ribs.....	1		1
Left eighth rib.....	1		1
FRACTURE-DISLOCATION:			
Left index finger, compound.....	1		1
Left ring finger.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
FRACTURE-DISLOCATION (Continued):			
Left little finger.....	1		1
HERNIA:			
Right inguinal.....	1		1
Right inguinal, direct.....	1		1
Left inguinal, congenital.....	1		1
Left inguinal, ancient.....		1	1
Umbilical.....		1	1
Umbilical, ancient.....	1		1
NECROSIS:			
Right tibia, following operation.....	1		1
ORGANS OF VISION:			
Blepharitis, right eye.....	1		1
Blepharitis, left eye.....	1		1
Blepharitis, both eyes.....	1	1	2
Conjunctivitis, right eye, acute.....	4	1	5
Conjunctivitis, right eye, acute, and impetigo contagiosa.....		1	1
Conjunctivitis, right eye, acute, traumatic, with marked edema.....		1	1
Conjunctivitis, right eye, traumatic.....	7		7
Conjunctivitis, left eye, acute.....	6	3	9
Conjunctivitis, left eye, purulent.....	1		1
Conjunctivitis, left eye, traumatic.....	1		1
Conjunctivitis, left eye, traumatic, and contused laceration of left cheek.....	1		1
Conjunctivitis, both eyes.....	5	1	6
Conjunctivitis, both eyes, acute, catarrhal.....	1		1
Conjunctivitis, both eyes, following ancient mules operation.....	1		1
Conjunctivitis, both eyes, acute, contagious.....	1		1
Conjunctivitis, both eyes, purulent, and dachryocystitis		1	1
Conjunctivitis and keratitis, left eye, acute.....	1		1
Chalazion, right upper eyelid, and furuncle of auditory meatus, right ear.....		1	1
Chalazion, both upper eyelids, infected.....		1	1
Dachryocystitis, right eye, purulent.....		1	1
Dachryocystitis, right eye, suppurative.....	1		1
Hordeolum, right lower eyelid, and acute conjunctivitis, both eyes.....	1		1
Hordeolum, right upper eyelid.....	3	1	4
Hordeolum, left lower eyelid.....	3		3
Hemorrhage, right eye, conjunctival.....	1		1
Keratitis, interstitial, right eye.....		1	1
Pterygium, right eye.....		1	1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
ORGANS OF VISION (Continued):			
Ulcer, traumatic, right cornea.....	2		2
Ulcer, traumatic, right cornea, ancient.....	1		1
Ulcer, right cornea, traumatic, with traumatic conjunctivitis.....	1		1
PERIOSTITIS:			
Left tibia, traumatic.....	1	1	2
SEPARATION:			
Right iliosacral synchondrosis, ancient.....	1		1
SINUS:			
Skull, following trephining.....	1		1
Face, following extraction of molar teeth.....		1	1
Right side, following appendectomy.....	1		1
Right side, following operation for empyema.....	1		1
Right wrist, following crush.....	1		1
Right hand, following ancient incision of abscess.....	1		1
Left cheek (caries of teeth).....		2	2
Left hand, following ancient incision.....	1		1
Left hand, following ancient wiring of compound fracture, and tenorrhaphy.....	1		1
Left hand, following ancient fracture.....	1		1
Left leg, discharging, following ancient fracture.....	1		1
Left thigh.....	1		1
SPRAIN:			
Right wrist, severe.....	9	1	10
Right hand.....	1		1
Right wrist, ancient.....	1	1	2
Right little finger.....		1	1
Right thigh, extensor muscles.....	1		1
Right ankle.....	8	3	11
Right ankle, ancient.....	2		2
Left arm.....	2		2
Left elbow.....	2		2
Left hand.....	1		1
Left wrist, and contusion of forearm.....	1		1
Left wrist.....	4	3	7
Left thumb.....	1		1
Left ankle, ancient.....	5	3	8
Left ankle.....	3	2	5
Both wrists.....	1		1
Back, ancient.....	1		1
Back.....	6		6
Back and abdomen.....	1		1
SYNOVITIS:			
Right wrist, tinea.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
SYNOVITIS (Continued):			
Left index finger, first phalangeal joint.....		1	1
Left knee joint, traumatic.....	1		1
ULCERS:			
Neck, specific.....	1	1	2
Gastric, chronic.....	1		1
Right submaxillary region, following operation for cellulitis.....		1	1
Right cervical region, following plastic operation for torticollis.....	1		1
Right breast.....		2	2
Right arm, following ancient penetrating wound.....	1		1
Right popliteal space, following incision of abscess.....	1		1
Right thigh.....		1	1
Right thigh, following contused laceration.....	1		1
Right leg, specific.....		1	1
Right leg, chronic.....		1	1
Right leg, varicose.....		1	1
Right leg, following operation for lipoma.....	1		1
Right knee, following contusion.....	1		1
Right ankle, following incision and drainage.....	1		1
Right foot, following ancient, compound fracture.....	1		1
Right great toe, following contusion.....	1		1
Left eye.....	1		1
Left cheek, following ancient incised wound.....	1		1
Left arm, following abrasion.....	5		5
Left thumb, with avulsion of nail.....	1		1
Left index finger, following ancient abrasion.....	1		1
Left thigh.....	1		1
Left leg.....	2		2
Left leg, following contusion.....	1		1
Left leg, specific, of calf.....	1		1
Left leg, varicose.....		3	3
Left leg, following ancient chemical burn.....	1		1
Left knee, following ancient contusion.....	1		1
Left knee, following punctured wound.....	1		1
Left knee, following abrasion.....	1		1
Left knee.....		1	1
Left anterior tibial region, following contusion.....	1		1
Left foot, following hematoma.....	1		1
Left foot.....	2		2
Left heel.....		1	1
WOUNDS — ABRASIONS:			
Right cornea.....	1		1
Right hand.....	1		1
Right leg.....	3		3

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
WOUNDS—ABRASIONS (Continued):			
Right heel.....	1		1

Left forearm, ancient.....	1		1
Left wrist.....	1	1	2
Left hand.....	2		2
Left thumb.....	1		1
Left thumb, superficial.....	1	1	2
Left index finger.....	3	3	6
Left middle finger.....	4	4	8
Left middle finger, and avulsion of nail.....	1		1
Left little finger.....		1	1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
WOUNDS—INFECTIONS (Continued):			
Left leg, deep.....	1	1	2
Left ankle, superficial.....	1		1
Left foot, superficial.....		1	1
Left great toe, superficial.....	1		1
Upper lip.....	2		2
Lower lip.....	1	1	2
Umbilicus.....	1		1
WOUNDS—LACERATED:			
Right temple, deep.....	1		1
Right supraorbital region.....	1	1	2
Right upper eyelid.....	3		3
Right eye.....	3		3
Right ala of nose, penetrating.....	1		1
Right mastoid region.....	1		1
Right arm.....	3		3
Right forearm, deep.....	1		1
Right forearm.....	4	1	5
Right wrist.....	6		6
Right wrist, with partial division of extensor tendon of thumb.....	1		1
Right wrist, with division of artery.....	1		1
Right hand, with severance of flexor tendon.....	1		1
Right hand, extensive, with partial division of flexor tendon.....	1		1
Right hand.....	24		24
Right thumb, deep.....	8		8
Right thumb, with division of flexor tendon.....	2		2
Right thumb, ancient.....	1		1
Right thumb, and avulsion of nail.....	1		1
Right index finger.....	9		9
Right index and middle fingers.....	2		2
Right middle finger.....	6		6
Right middle finger, and avulsion of nail.....	1		1
Right ring finger, ancient.....	9		9
Right little finger, deep, with division of flexor tendon.....	1		1
Right little finger.....	5		5
Right little finger, with partial division of extensor tendon.....	1		1
Right leg.....	2		2
Right knee.....	5		5
Right heel.....	1		1
Right foot.....	6	2	8
Right great toe, deep.....	1		1
Left temporal region.....	1	1	2
Left supraorbital region.....	1		1
Left upper eyelid.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
WOUNDS—LACERATED (Continued):			
Left angle of jaw, deep.....	1		1
Left ear, lobe.....	1		1
Left elbow, involving bursa, deep.....	1		1
Left forearm.....	1		1
Left forearm, with partial division of flexor tendon....	1		1
Left wrist, with injury to tendons.....	1		1
Left wrist, with partial division of extensor tendon....	2		2
Left wrist.....	6		6
Left hand.....	21	1	22
Left thumb.....	8		8
Left thumb and dorsum of hand.....	1		1
Left thumb, with partial division of extensor tendon...	1		1
Left index finger.....	5	2	7
Left middle finger.....	4		4
Left middle finger, with division of extensor tendon....	2		2
Left ring finger.....	1		1
Left ring finger, and avulsion of nail.....	2		2
Left little finger, ancient.....	1		1
Left little finger, extensive.....	4		4
Left hip.....	2		2
Left knee.....	2		2
Left leg.....	3		3
Left foot.....	6		6
Left great toe.....	2		2

Scalp, extensive, with partial avulsion.....	1		1
Scalp, ancient, extensive.....	3		3
Scalp, and contusion of forehead.....	2		2
Scalp and left hand.....	1		1
Scalp, ancient; keratitis and conjunctivitis of both eyes, following explosion of dynamite.....	1		1
Scalp and forehead, ancient; simple fracture of left middle finger.....	1		1
Scalp and forehead.....		1	1
Scalp and traumatic torticollis, right side.....	1		1
Scalp and right eye.....	1		1
Scalp and right forearm.....	1		1
Scalp, right middle and ring fingers.....	1		1
Forehead.....	8		8
Mouth.....	1	1	2
Upper lip, ancient.....	1		1
Lower lip.....	3	1	4
Lower lip, ancient.....		1	1
Face.....	2		2
Nose.....	1		1
Head.....	1		1
Tongue.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
WOUNDS—LACERATED (Continued):			
Chin.....	2		2
Back.....	1		1
Both hands.....	1		1
WOUNDS—LACERATED AND CONTUSED:			
Right eyebrow, ancient.....	1		1
Right forearm.....	1		1
Right hand, ancient.....	2		2
Right hand.....	6		6
Right hand and right tibial region.....	1		1
Right thumb, and general contusion of body.....	1		1
Right thumb.....	5		5
Right index finger.....	2		2
Right middle finger.....	3		3
Right ring finger.....	1		1
Right ring finger, ancient.....	1		1
Right little finger.....	1		1
Right hip and thigh.....	1		1
Right knee.....	1		1
Right leg.....	1		1
Right foot.....	1		1
Left supraorbital region.....	1		1
Left hand.....	1		1
Left hand, dorsum, with compound fracture of metacarpal bone, and partial division of extensor tendon....	1		1
Left thumb.....	5		5
Left index finger, extensive.....	4		4
Left index and middle fingers.....	1		1
Left middle finger.....	1		1
Left ring finger, and acute gastritis.....	1		1
Left little finger.....	2		2
Left third toe.....	3		3
Scalp.....	3		3
Forehead.....	1		1
Forehead, ancient.....	1		1
Face and neck, multiple.....	1		1
Upper lip.....	1		1
Upper lip, ancient.....	1		1
Upper lip, and contusion of left eyebrow.....	1		1
Lower lip.....	1		1
Chin.....	1		1
WOUNDS—LACERATED AND INFECTED:			
Right arm.....	1		1
Right hand.....	4	1	5
Right hand, ancient.....	2		2
Right index finger.....		1	1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
WOUNDS—LACERATED AND INFECTED (Continued):			
Right middle finger.....	1		1
Right little finger, ancient.....	1		1
Right leg.....	1		1
Right knee.....	1		1
Right foot.....	1		1
Right foot, ancient.....	1		1
Left hand.....	1	1	2
Left hand, ancient.....	1		1
Left index finger.....	1		1
Left little finger.....	1		1
Left ankle.....		1	1
Left third toe.....		1	1
Scalp.....		1	1
Scalp, ancient.....	2		2
Scalp; contusion of chest and back, and asthma.....	1		1
Chest.....	1		1
WOUNDS—PUNCTURED:			
Right temporal region.....	1		1
Right cheek (nail).....	1		1
Right elbow, involving bursa.....	1		1
Right hand (nail).....	2		2
Right hand, ancient.....	1		1
Right forearm.....		1	1
Right thigh, ancient.....	1		1
Right knee.....	1		1
Right foot (nail).....	7	3	10
Right foot, ancient (nail).....	1		1

RECORD OF DEATHS

From June 1, 1914, to June 1, 1915

- 1—No. 1999, aged 16 years; admitted June 6, 1914; died June 6, 1914; shock following crush and amputation of both legs, with extensive laceration of groin and back.
- 2—No. 2046, aged 79 years; admitted June 29, 1914; died July 2, 1914; traumatic urethritis.
- 3—No. 2084, aged 3 months; admitted July 15, 1914; died July 17, 1914; marasmus.
- 4—No. 2106, aged 27 years; admitted July 27, 1914; died July 28, 1914; exhaustion following pneumonia.
- 5—No. 2143, aged 33 years; admitted August 16, 1914; died August 24, 1914; cerebral meningitis.
- 6—No. 2152, aged 19 months; admitted August 20, 1914; died August 28, 1914; convulsions following gastro-enteritis.
- 7—No. 2154, aged 19 years; admitted August 20, 1914; died August 22, 1914; shock following internal injuries.
- 8—No. 2161, aged 15 months; admitted August 22, 1914; died August 23, 1914; chronic gastro-enteritis.
- 9—No. 2168, aged 23 years; admitted August 26, 1914; died September 15, 1914; cardiac dilatation.
- 10—No. 2183, aged 3 months; admitted September 4, 1914; died September 8, 1914; convulsions following gastro-enteritis.
- 11—No. 2186, aged 14 years; admitted September 5, 1914; died September 6, 1914; shock following burns.
- 12—No. 2200, aged 21 years; admitted September 12, 1914; died September 12, 1914; shock following compound, comminuted, depressed fracture of mastoid processes of both temporal and occipital bones.
- 13—No. 2208, aged 55 years; admitted September 16, 1914; died September 17, 1914; shock following injuries due to explosion of dynamite.
- 14—No. 2209, aged 18 years; admitted September 16, 1914; died September 17, 1914; shock following injuries due to explosion of dynamite.
- 15—No. 2210, aged 18 years; admitted September 16, 1914; died September 16, 1914; depressed fracture of frontal bone.
- 16—No. 2216, aged 78 years; admitted September 21, 1914; died September 24, 1914; lobar pneumonia following traumatism.
- 17—No. 2254, aged 32 years; admitted October 11, 1914; died December 22, 1914; cardiac embolus.
- 18—No. 2256, admitted October 13, 1914; died October 13, 1914; shock following fracture of vault of skull. (Homicide.)
- 19—No. 2277, aged 26 years; admitted October 23, 1914; died October 24, 1914; internal hemorrhage following fracture of pelvis with ruptured urethra.
- 20—No. 2294, aged 54 years; admitted October 31, 1914; died November 17, 1914; arterial sclerosis and arterial hemorrhage.

- 21—No. 2303, aged 65 years; admitted November 2, 1914; died November 13, 1914; chronic valvular heart disease with ruptured compensation.
- 22—No. 2306, admitted November 5, 1914; died November 5, 1914; shock following injuries to back, arm and scalp.
- 23—No. 2324, aged 5 months; admitted November 12, 1914; died December 7, 1914; convulsions.
- 24—No. 2331, aged 41 years; admitted November 16, 1914; died November 30, 1914; athenia following traumatic amputation of right arm and right leg.
- 25—No. 2361, aged 40 years; admitted December 1, 1914; died December 27, 1914; general peritonitis.
- 26—No. 2374, aged 5 years; admitted December 10, 1914; died December 10, 1914; shock following burns of entire body by fire.
- 27—No. 2385, aged 74 years; admitted December 20, 1914; died December 29, 1914; chronic interstitial nephritis.
- 28—No. 2397, aged 67 years; admitted December 29, 1914; died March 23, 1915; cerebral hemorrhage.
- 29—No. 2400, aged 50 years; admitted January 1, 1915; died January 1, 1915; shock following injuries to head and face.
- 30—No. 2432, aged 24 years; admitted January 19, 1915; died January 20, 1915; shock following burns of entire body by steam.
- 31—No. 2436, aged 77 years; admitted January 21, 1915; died April 12, 1915; gastric carcinoma.
- 32—No. 2453, aged 50 years; admitted February 1, 1915; died February 7, 1915; cardiac embolus.
- 33—No. 2522, aged 14 years; admitted March 8, 1915; died March 25, 1915; acute miliary tuberculosis.
- 34—No. 2527, aged 5 years; admitted March 11, 1915; died March 11, 1915; acute alcoholic poisoning. (Whiskey.)
- 35—No. 2580, aged 40 years; admitted April 7, 1915; died June 13, 1915; cerebral abscess.
- 36—No. 2502, admitted April 17, 1914; died April 18, 1915; puerperal septic peritonitis.
- 37—No. 2639, aged 35 years; admitted May 7, 1915; died May 9, 1915; cardiac failure contributory to toxemia of pregnancy.
- 38—No. 2640, aged 56 years; admitted May 7, 1915; died May 18, 1915; acute cardiac dilatation.
- 39—No. 2647, aged 37 years; admitted May 11, 1915; died May 12, 1915; shock following burns by fire.
- 40—No. 2653, aged 24 years; admitted May 14, 1915; died May 15, 1915; post-partum eclampsia.
- 41—No. 2659, aged 40 years; admitted May 19, 1915; died May 20, 1915; shock following burns due to explosion of gas.
- 42—No. 2677, aged 1 day; admitted May 29, 1915; died May 31, 1915; asphyxia.

NUMBER OF PATIENTS PER DAY

From June 1, 1914, to June 1, 1915

The following table indicates the number of patients in the Hospital each day, from June 1, 1914, to June 1, 1915, the daily average for the year being 46.

The greatest number of patients in the Hospital on any one day was 59.
The smallest number of patients in the Hospital on any one day was 36.

SUMMARY

From June 1, 1914, to June 1, 1915

During the past year there were 688 patients treated in the wards of the Hospital; 2,194 were treated in the dispensary, making a total of 2,882.

The aggregate number of days patients were treated in the Hospital were 16,973, or an average of 25 days for each patient.

The number of visits of out-patients to the dispensary was 14,339.

The percentage of deaths during the year, excluding those who died within twenty-four hours, or never regained consciousness after their admission, was 4 and 7-100 per cent.

Tables of Superintendent's Report show that the daily average number of patients was 46.

The average cost of sustenance for each patient was \$1.48, and the gross cost \$1.63, as will be seen by the following table:

	Average Maintenance per Day	Average Medicine per Day	Average Cost per Day	Average No. of Patients per Day	Total Discharges	Total Admissions	Total Deaths

FINANCIAL STATEMENT

For the year ending May 31, 1915

ASSETS

Main Building—Including heating plant, high and low pressure boilers.....	\$33,673.50
Improvements—Fire escape.....	315.00
Lot, 585 x 400 feet.....	20,000.00
Improvements { Fence (hedge and protecting fence). \$602.99	
{ Grading..... 400.00	
	1,002.99
Total.....	\$ 54,991.49

PERSONAL ESTATE

Furniture, drugs and surgical instruments.....	\$ 7,662.67
Laundry equipment (donated).....	1,083.50
Elevator (donated).....	2,240.00
X-Ray equipment (donated).....	1,121.99
Sterilizing outfit.....	507.30
Fly screens.....	356.00
Awnings.....	318.37
	\$13,289.83

RECEIPTS

Appropriation—Commonwealth of Pennsylvania, on account of maintenance.....	\$20,000.00
Appropriation—Commonwealth of Pennsylvania, on account of deficiency.....	6,756.24
For patients' board and treatment.....	293.95
For donations.....	105.79
For sale of materials.....	106.53
For service of nurses.....	4.86
	\$ 27,267.37

PAYMENTS

Maintenance:	
For salaries, wages and labor.....	\$11,994.96
For provisions.....	7,489.29
For fuel and light.....	1,312.88
For medicines and surgical supplies.....	2,549.80
For dry goods, shoes and clothing.....	461.12
For repairs.....	641.69
For furniture, beds and bedding, brooms and brushes.....	520.45
For interest and insurance.....	740.55
For painting.....	91.88
For water rent.....	523.26
For all other expenses.....	1,803.54
	\$ 28,129.42

SUMMARY

Indebtedness, June 1, 1914.....	\$ 6,441.72
Total payments.....	28,129.42
	\$ 34,571.14
Total receipts.....	27,267.37
Indebtedness, June 1, 1915.....	\$ 7,303.77
Interest on borrowed money.....	19.00
	\$ 7,322.77
Indebtedness, June 1, 1915.....	\$ 7,322.77

HOUSE CASES

The following is a report of the House Cases treated in the Hospital from June 1, 1915, to June 1, 1916:

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
ABSCESSSES:									
Right mastoid, superperiosteal, with extensive necrosis of the bone.....		1	1						1
Right submaxillary region.....		1	1						1
Right perinephric (tubercular).....		1	1						1
Left cervical region, deep.....		1	1						1
Left femoral region, multiple.....		1	1						1
Left pectoral region.....		1	1						1
Left thigh, anterior surface, deep.....		1	1						1
Perityphilitic.....		1	1						1
Ischio-rectal.....		1	1						1
AMPUTATION:									
Right forearm, lower third, traumatic (dynamite explosion).....		1	1						1
Left arm, middle third; left thigh, middle third, traumatic, with fracture of tenth dorsal vertebrae and right prepatella.....		1					1		1
Left leg at hip, traumatic.....		1					1		1
Left second, third and fourth toes.....		1	1						1
ANKYLOSIS:									
Left knee and ankle, following specific arthritis of both joints.....		1		1					1
ARTHRITIS:									
Right shoulder, traumatic.....		1	1						1
Right knee, traumatic.....		2	2						2
Right knee and right wrist, tubercular, with synovitis, following osteomalacia (tuberculous) of left tibia.....		1						1	1
Left knee, traumatic, and traumatic periostitis of internal condyle, left femur.....		1	1						1
Left knee, traumatic, with severe contusion of dorsum of right foot.....		1	1						1
Left knee, traumatic, with ancient, tuberculous arthritis, left hip.	1		1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
ARTHRITIS (Continued):									
Left knee, traumatic.....		1	1						1
Left knee and left wrist, rheumatic, complicated by senility.....	1		1						1
Left ankle, acute, rheumatic.....		1	1						1
Both hips, rheumatic.....		1		1					1
Both hips, chronic, rheumatic.....		1	1						1
Both ankles, rheumatic.....		1	1						1
BURNS BY CHEMICALS:									
Face, neck, chest, both hands, forearms and right cornea (nitric sulphuric acid).....		1	1						1
Right wrist, face, neck and ears, second degree (molten lead).....	1		1						1
Both ankles, hot cement, third degree.	1		1						1
BURNS BY FIRE:									
Face and nose, second degree.....	1		1						1
Both hands, third degree, and inner surface of both arms and forearms..		1						1	1
Right hand, forearm and thigh, com- plicated by senility and cystitis....		1				1			1
Right leg, outer surface, third degree, ancient, infected.....		1	1						1
BURNS BY GAS:									
Face, neck, both ears, both forearms and hands, back and chest, third degree, with fracture of upper third of left ulna.....		1	1						1
Face, neck, both ears, both forearms and hands, back, chest and buttocks, third degree.....		1	1						1
Face, neck, both ears, both arms, fore- arms and hands, chest and back, third degree.....	1		1						1
Face, neck, both ears, both forearms and hands, third degree, with severe contusion of left side of chest.....		1	1						1
Face, neck, both ears, both hands and chest, third degree.....		2	2						2
Face, neck, ears chest, back, forearms and hands, third degree; delirium tremens.....		1	1						1
Face, neck, ears and hands, third degree.....	1	13	14						14
Face, neck, ears, hands and forearms, third degree.....		2	2						2

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
BURNS BY GAS (Continued):									
Face, neck, ears and right hand, third degree.....		2	2						2
Face, neck, ears and left forearm, third degree.....		1	1						1
Face, neck and ears, third degree.....		1	1						1
Face, neck and ears, third degree; hands, second degree.....		1	1						1
Face, neck, both ears and both wrists, second degree.....		1	1						1
Face, neck and both ears, second degree		3	3						3
Face, neck, ears and hands, second degree.....		1	1						1
Face, neck, ears and left hand, second degree.....		1	1						1
Face, neck, ears and left hand, second degree; laceration of scalp.....		1	1						1
Face, neck, ears and left hand, second degree; laceration of left leg.....		1	1						1
Face, second degree.....		1	1						1
Neck and ears, second degree; deep laceration of scalp.....		1	1						1
Neck, ears and hands, third degree; face and nose, second degree.....		1	1						1
Ears, third degree; face, neck and right hand, second degree.....		1	1						1
BURNS BY HOT WATER:									
Face and both ears.....		1	1						1
Face, chest, left shoulder and arm.....		1	1						1
Face, both hands, legs and thighs.....		1	1						1
Neck, chin, chest, arms and shoulders.		1	1						1
Both buttocks, thighs and genitals, third degree.....		1	1						1
Both arms and legs.....		1	1						1
Both feet, legs and thighs, second degree.....		1	1						1
Right arm, trunk, buttocks and thighs		1				1			1
Left leg, outer surface, second degree..		1	1						1
Left knee and thigh.....		1	1						1
Left foot.....		1	1						1
BURNS BY POWDER:									
Both corneas, face, nose, forehead and ears; complicated by conjunctivitis, both eyes....		1	1						1
BURSITIS:									
Right prepatella.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
BURSITIS (Continued):									
Right prepatella, suppurative.....		2	2						2
Right prepatella, with traumatic periostitis, head of right tibia, following ancient contusion.....		1	1						1
Left hip, massive, following ancient contusion of supertrochanteric bursa		1	1						1
Left heel.....		1	1						1
CELLULITIS:									
Submental region, suppurative, involving all tissues of floor of mouth		1	1						1
Submental region, suppurative, following ancient, compound fracture of symphysis mandible.....		1	1						1
Right mastoid region, acute.....		1	1						1
Right axillary region, suppurative....		1						1	1
Right elbow, acute, with acute arthritis; ancient fracture, head of right radius, involving joint.....		1	1						1
Right forearm and hand, suppurative..		1	1						1
Right hand and thumb, suppurative...		1	1						1
Right hand, involving flexor tendons of middle and ring fingers, suppurative.....		3	3						3
Right middle finger, gangrenous, involving extensor and flexor tendons, with acute periostitis of proximal phalanx.....		1			1				1
Right inguinal region; right inguinal hernia.....		1	1						1
Right knee, suppurative, involving prepatella bursa.....		1	1						1
Right leg and thigh, diffuse.....		1		1					1
Right leg, suppurative, involving sheath of tendon of Achilles.....		1	1						1
Right leg.....		1	1						1
Right heel, suppurative, with extensive slough of tendon of Achilles.....		1	1						1
Left mastoid region, suppurative.....		1	1						1
Left cervical region, suppurative, extensive.....		1	1						1
Left hand and forearm, suppurative...		1	1						1
Left hand, involving flexor and extensor tendons, ring and little fingers...		1	1						1
Left thumb and dorsum of hand, following ancient crush, with compound fracture of distal phalanx, involving joint.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
CELLULITIS (Continued):									
Left ring finger, gangrenous, following crush.....		1	1						1
Left ring finger, gangrenous, involving flexor tendon of hand.....		1	1						1
Left leg and thigh; ancient, compound fracture of left femur.....		1	1						1
Left knee, acute, involving prepatella bursa.....		5	5						5
Left ankle and calf of left leg, suppurative, complicated by suppurative arthritis of ankle joint.....	1		1						1
Left foot and anterior surface of leg, suppurative.....		1	1						1
CONCUSSION:									
Brain, and contused laceration of left temporal region.....		1	1						1
Cerebral, prolonged; contusions of scalp, jaw and neck, complicated by chronic, interstitial nephritis and amnesia; abscess of left occipital region.....	1					1			1
Cerebral, and hematoma of left parietal region.....		1	1						1
Cerebral, with severe contusion of face and left eye.....		1	1						1
Cerebral, with extensive, contused lacerations of scalp, neck and back..		1	1						1
Cerebral, and general contusions of body		1	1						1
Cerebral, and crush of right leg, complicated by chronic nephritis and endocarditis.....		1					1		1
Cerebral and spinal; severe contusion of right eye.....		1	1						1
Cerebral and spinal; severe contusion of lumbar region.....		1	1						1
Cerebral and spinal, with laceration of scalp; fracture of fifth and sixth left ribs; rupture of left sterno clavicular ligaments, and severe contusion of lumbar region.....		1	1						1
Spinal.....		1	1						1
CONTUSION:									
Face, neck, scalp, right eye and right hand; acute alcoholism.....		1	1						1
Body, general; acute alcoholism.....		1	1						1
Chest, shoulders and arms, severe, with abrasion of face, and traumatic amputation of right little finger.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
CONTUSION (Continued):									
Chest and right hypochondrium, with rupture of liver.....		1					1		1
Abdomen, severe.....		1	1						1
Back, severe.....		2	2						2
Back, severe, ancient.....		1	1						1
Back, severe, and spinal concussion...		1	1						1
Back and right elbow, severe.....	1		1						1
Back, both hips and left knee, severe..		1	1						1
Pelvis, severe, with spinal concussion..		1	1						1
Both buttocks and sacral region, severe, with extensive hematoma of buttocks and sacral region.....		1						1	1
Right eye, severe, with hemorrhage into anterior chamber of eyeball....		1	1						1
Right shoulder and abdomen.....		1	1						1
Right shoulder and right hip		1	1						1
Right thigh, anterior surface, severe..		1	1						1
Right thigh, severe, and abrasion of scalp.....		1	1						1
Right loin, right hip and chest, severe, with extensive hematoma of right loin.....		1	1						1
Right loin, hips and back, severe.....		1	1						1
Right hip and pelvis, severe.....		1	1						1
Right knee, severe; acute alcoholism...		1	1						1
Right knee and thigh; delirium tremens, and acute leptomeningitis....		1				1			1
Right knee, severe, with traumatic periostitis of internal condyle, right femur.....		1	1						1
Right knee joint, severe, complicated by rupture of right internal and external lateral ligaments.....	1		1						1
Right tibial region, severe; ancient, compound fracture of right tibia, and dislocation of right ankle.....		1	1						1
Right ankle, severe.....		3	3						3
Right ankle and dorsum of right foot..		1						1	1
Right foot, ancient, severe, and contused laceration of inner surface of right ankle.....		1	1						1
Left shoulder and hip, severe.....		1	1						1
Left groin, severe, with abrasion of left thigh.....		1		1					1
Left knee and calf of left leg, severe...		1	1						1
Left knee.....		1	1						1
Left leg, outer surface, severe.....		2	2						2

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
CONTUSION (Continued):									
Left leg and thigh, with contused laceration of forehead.....		1	1						1
Left ankle, severe, with rupture of internal lateral ligaments.....		1	1						1
Left ankle, severe.....		2	2						2
Left foot, severe.....		3	3						3
CRUSH:									
Chest, with compound fracture of third, fourth, fifth, sixth and seventh right ribs, and laceration of lung tissue...		1	1						1
Pelvis.....		1					1		1
Pelvis; extensive laceration of perineum, involving rectum.....		1				1			1
Right hand, with extensive maceration of soft parts.....	1		1						1
Right hand, with compound, comminuted fracture of all metacarpal bones, and extensive maceration of soft parts.....		1	1						1
Right knee, with contusion of inner surface of left leg and thigh.....		1	1						1
Right leg, with compound fracture of head of right tibia, involving knee joint; simple fracture at junction of middle and lower third, right femur, and extensive, contused laceration of outer surface of right thigh and leg, with maceration of muscles.....		1						1	1
Right leg; compound, comminuted fracture of upper third, right tibia, and multiple fracture of fibula; compound fracture of internal malleolus, and extensive laceration and contusion of foot, dorsal and inner surface.....		1						1	1
Right leg, with compound fracture of tibia and fibula, and severe, contused laceration, and avulsion of soft parts (mitral stenosis).....		1	1						1
Right leg, with traumatic amputation in lower third of tibia.....		1	1						1
Right foot, with compound, comminuted fracture of all toes and tarsal bones.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
CRUSH (Continued):									
Right foot, with compound, comminuted fracture of all tarsal and metatarsal bones.....		1	1						1
Right great toe, with severe contusion of dorsum of foot.....	1		1						1
Left hand, with traumatic amputation of little finger at carpo phalangeal articulation, and extensive contused laceration of dorsum of hand.....		1	1						1
Left hand, with traumatic amputation of little finger, and compound, comminuted fracture of ring finger.....		1	1						1
Left index finger, with compound, comminuted fracture of proximal phalanx, and complete division of extensor tendon.....		1	1						1
Left leg, with compound, comminuted fracture of upper third, right tibia, involving head of bone, compound fracture of upper third, left fibula, complicated by extensive, contused laceration of soft part		1						1	1
Left great toe, with fracture of distal phalanx.....		1	1						1
Left third, fourth and fifth toes.....		1	1						1
DERMATITIS:									
Both hands, forearms and chest (ivy poisoning).....		1	1						1
DISLOCATION:									
Right ulna and radius at elbow, posterior, complicated by fracture of olecranon process, left ulna, and internal condyle of humerus.....	1		1						1
Right hip, congenital.....		1						1	1
Left humerus, subglenoid.....		2	2						2
Both knees, interarticular cartilages, chronic.....		1	1						1
FOREIGN BODIES:									
Left cornea, wood, with associated, acute conjunctivitis, both eyes.....		1	1						1
FRACTURE—COMMINUTED:									
Right clavicle, outer third, and epilepsy.....	1		1						1
Right clavicle, middle third; right fourth, fifth and sixth ribs, and severe contusion of right shoulder and chest		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
FRACTURE—COMMUNUTED (Continued):									
Right humerus, middle third; right femur, middle third, and both iliac crests, simple (delirium tremens)....		1	1						1
Right radius, distal extremity, involving wrist joint, with simple fracture of crest of ilium.....		1	1						1
Right tibia, lower third.....	1		1						1
Right leg, both bones, middle third...		1						1	1
Right leg, both bones, upper third, with traumatic arthritis of right knee, and severe contusion of soft parts...		1						1	1
Left femur, middle third, with severe contusion of thigh.....		1	1						1
Left leg, both bones, upper third, with extensive contusion of soft parts....		1						1	1
Left leg, both bones, middle third.....		1	1						1
Left leg, both bones, upper third, oblique.....		1	1						1
Left ankle, external malleoli; simple fracture of internal malleolus.....		1	1						1
Left ankle, external malleolus.....		1	1						1
Left humerus, oblique, supracondylar, involving elbow joint, with fracture of olecranon process, left ulna.....		1						1	1
Right great toe, proximal phalanx, with extensive hematoma of dorsum of foot.....		1						1	1
FRACTURE—COMPOUND:									
Base of skull; second, third and fourth cervical vertebrae, simple.....		1				1			1
Base of skull; comminuted, depressed fracture of left parietal and temporal bones.....		1					1		1
Base of skull; third and fourth cervical vertebrae, followed by complete paralysis.....		1					1		1
Base of skull; second, third, fourth and fifth right ribs and right scapula; severe contusion and abrasion of chest and laceration of scalp.....		1	1						1
Nasal bones; dislocation of left shoulder, and severe contusion of right hip.....		1	1						1
Mandible, symphysis.....		1	1						1
Mandible, multiple; fracture of right fourth rib and left clavicle, middle third, with extensive penetrating wound of right cheek and neck.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
FRACTURE—COMPOUND (Continued):									
Right fourth metacarpal bone, with severe contusion of soft parts.....									
Right thumb, and severe contusion of right hand, arm and body.....		1	1						1
Right fibula, middle third, with extensive crush of calf of right leg.....	1		1						1
Right leg, both bones, lower third, with severe contusion and laceration of soft parts; simple, comminuted fracture, middle third, right femur, and severe contusion of soft parts.....		1	1						1
Left femur, middle third, with severe contusion and laceration of interior surface of thigh.....		1	1						1
Left fourth and fifth toes.....		1	1						1
FRACTURE—COMPOUND, COMMUNUTED:									
Right humerus, both condyles, involving elbow joint.....		1	1						1
Right humerus, both condyles, involving elbow joint, complicated by simple fracture of surgical neck of humerus.....		1						1	1
Right femur, middle third, with extensive laceration of extensor and flexor muscles, right thigh.....		1						1	1
Right leg, both bones, lower third; laceration of right cheek.....		1	1						1
Right leg, both bones, lower third, involving ankle.....		1	1						1
Right astragalus, and compound fracture of right fibula, with extensive laceration of foot.....		1	1						1
Left humerus, middle third, with extensive laceration of soft parts.....		1			1				1
FRACTURE—COMPOUND, COMMUNUTED, DEPRESSED:									
Frontal bone, ancient.....	1		1						1
Frontal and temporal bones, with separation of left frontal and parietal fissure.....		1	1						1
Left temporal bone, with extensive laceration of membranes, and destruction of cerebral cortex, and complete ptosis of left eye.....		1	1						1
Left parietal, complicated by severe contusion of face, both eyes and body; infected.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
FRACTURE—COMPOUND, COMMUNUTED, DEPRESSED (Continued):									
Left parietal, and squamous portion of temporal bone, involving roof of left orbit and orbital plate of frontal bone; severe contusion and abrasion, left hand.....		1	1						1
FRACTURE—COMPOUND, DEPRESSED:									
Left parietal bone, ancient, infected...		1	1						1
Left parietal bone, with extensive, contused laceration of scalp.....		1	1						1
FRACTURE—GREENSTICK:									
Right femur, middle third.....	1		1						1
FRACTURE—POTT'S:									
Right ankle, ancient, ununited.....		1	1						1
Right ankle, internal malleolus, complicated by severe contusion of outer surface of leg and ankle.....		1	1						1
Right ankle, internal malleolus, with rupture of external lateral ligaments		1	1						1
Right ankle, internal malleolus, with severe contusion of dorsum of foot..		1	1						1
Right ankle, internal and external malleoli, with rupture of external and internal lateral ligaments.....		2	2						2
Right ankle, internal and external malleoli, ancient, unreduced.....		1	1						1
Right ankle, internal and external malleoli, ancient, unreduced, with delayed union.....		1	1						1
Right ankle, internal and external malleoli (general psoriasis).....		1	1						1
Right ankle.....		1						1	1
Left ankle, internal malleolus.....		3	3						3
Left ankle.....	1	2	3						3
FRACTURE—SIMPLE:									
Nasal bones, with severe contusion of right malar region.....		1	1						1
Mandible, symphysis.....		1	1						1
Mandible, right ramus, with severe contusion and laceration of right ear.....		1	1						1
Right scapula, acromial process, with severe contusion of right shoulder...		1						1	1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
FRACTURE—SIMPLE (Continued):									
Right humerus, both condyles, and fracture of olecranon process of right ulna.....	1		1						1
Right humerus, internal condyle, with posterior dislocation of both bones, right forearm.....		1	1						1
Right humerus, middle third.....		1	1						1
Right humerus, supracondylar, and right ulna, olecranon process, involving elbow joint; contused laceration of right thigh and right knee.....		1	1						1
Right humerus, junction of upper and middle third; extensive, contused laceration of scalp, and fracture of ninth, tenth and eleventh left ribs...		1	1						1
Right humerus, surgical neck, with severe contusion of shoulder; epithelioma of right arm.....		1		1					1
Right forearm, both bones, lower third, and fracture of upper third, right ulna; bilateral inguinal hernia.....	1			1					1
Right forearm, lower third.....		1	1						1
Right forearm, both bones; severe contusion of back and chest.....		1	1						1
Right ulna, with extensive hematoma of right forearm, and severe contusion and laceration of soft parts...		1	1						1
Right radius, complicated by severe contusion of soft parts, and punctured wound, anterior surface, of right forearm.....		1	1						1
Right fourth, fifth, seventh and eighth ribs; comminuted fracture of lower third, right fibula, with dislocation of astragalus and rupture of internal lateral ligaments; luxation of tenth dorsal vertebrae.....		1	1						1
Right fourth, fifth and sixth ribs, with rupture of costo sternal articulation, and severe contusion of chest.....		1	1						1
Right fifth and sixth ribs, with severe contusion of chest.....		1	1						1
Right sixth, seventh and eighth ribs, with crush of right thumb, index, middle and ring fingers.....		1	1						1
Right sixth and eighth ribs.....		1	1						1
Right seventh rib.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
FRACTURE—SIMPLE (Continued):									
Right pubic bone, and separation of symphysis of pubis.....		1	1						1
Right hip joint, intracapsular, impacted.....		1	1						1
Right femur, lower third.....		1	1						1
Right femur, lower third, complicated by extensive injury to soft parts....	1			1					1
Right femur, at junction of lower and middle third, oblique.....		1	1						1
Right femur, at junction of upper and middle third.....		1	1						1
Right femur, upper third, intertrochanteric.....		1	1						1
Right tibia, lower third, oblique.....		1	1						1
Right tibia, middle third, spiral; enuresis and right otorrhea.....		1	1						1
Right tibia, middle third, oblique; upper third of right fibula, with severe contusion of soft parts.....		1						1	1
Right fibula, lower third, and internal malleolus, right tibia, with rupture of internal and external lateral ligaments.....		1	1						1
Right fibula, lower third, with rupture of internal lateral ligaments, ankle joint.....		1	1						1
Right fibula, lower third.....		1	1						1
Right fibula, middle third, with extensive injury to leg.....	1			1					1
Right fibula, upper third, and extensive laceration of nose.....		1	1						1
Right semilunar bone, with severe contusion of dorsum of foot.....		1		1					1
Right first metatarsal bone, with severe contusion of dorsum of foot.....		1	1						1
Right great toe, proximal phalanx....		1						1	1
Left clavicle, multiple, with severe contusion of shoulder.....		1	1						1
Left humerus, supracondylar, involving elbow joint.....		3	1					2	3
Left forearm, both bones, ancient, unreduced.....		1	1						1
Left radius, middle third.....		1	1						1
Left second, third and fourth ribs, and severe contusion of shoulder.....		1	1						1
Left fourth, fifth, sixth, seventh, eighth and ninth ribs, with puncture of left lung, and traumatic emphysema of back.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
FRACTURE—SIMPLE (Continued):									
Left fifth and sixth ribs, with punctured left lung, and traumatic emphysema of tissues, left side of chest; ancient laceration, left temporal region.....		1	1						1
Left sixth rib, and severe contusion of body.....		1	1						1
Left ninth, tenth and eleventh ribs....		1	1						1
Left ilium, crest, complicated by severe contusion of soft parts and left hip joint.....		1	1						1
Left femur, lower third.....		2	2						2
Left femur, lower third, oblique, with extensive laceration of soft parts....		1	1						1
Left femur, middle third, oblique.....		3	3						3
Left radius, oblique, with severe contusion and abrasion of forearm.....		1						1	1
Left tibia, oblique; comminuted fracture of left fibula, middle third, with severe contusion of soft parts.....		1	1						1
Left fibula, distal extremity.....		1	1						1
Left second metatarsal bone, with traumatic arthritis, and severe contusion of inner surface of knee.....		1	1						1
Left second, third and fourth metatarsal bones.....		1	1						1
Left fourth metatarsal bone.....		1	1						1
Left fifth metatarsal bone.....		1	1						1
FRACTURE-DISLOCATION:									
Left iliac bone, with severe contusion of back, and contused laceration of scalp.....		1	1						1
Left knee and senility.....		1	1						1
HERNIA:									
Right inguinal, indirect.....		4	3					1	4
Right inguinal, strangulated.....	1		1						1
Right inguinal, strangulated, complicated by broncho-pneumonia and senility.....		1				1			1
Left inguinal, indirect.....		2	1					1	2
Bilateral inguinal, indirect; chronic, interstitial nephritis.....		1		1					1
NECROSIS:									
Right mastoid region; mild, suppurative cellulitis, following acute, suppurative otitis media.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
NECROSIS (Continued):									
Right index finger, distal phalanx, with gangrenous cellulitis of entire finger, involving extensor and flexor tendons.....		1	1						1
Left tibia, extensive (luetie).....		1						1	1
ORGANS OF VISION:									
Conjunctivitis, right eye, complicated by ancient cicatrix, entire right cornea.....		1	1						1
Conjunctivitis, both eyes, traumatic, complicated by electric burn of right malar region.....		1	1						1
Conjunctivitis and keratitis, both eyes, traumatic, with foreign bodies, rock, in both eyes, and multiple, contused lacerations of face, neck and chest..		1	1						1
Cataract, right eye, traumatic, complicated by keratitis; conjunctivitis, both eyes.....		1			1				1
Keratitis, right eye, interstitial (luetie).		1	1						1
Keratitis, right eye, suppurative, with perforation into anterior chamber of eyeball, and conjunctivitis, entire eye.....		1	1						1
PERIOSTITIS:									
Right tibia, traumatic, with chronic eczema.....		1	1						1
Left tibia, traumatic, with severe contusion of calf of left leg, face and upper lip		1	1						1
SEPARATION:									
Right sacro-iliac synchondrosis, and severe contusion of right hypochondrium.....		1	1						1
Right sacro-iliac, synchondrosis, with severe contusion of pelvis and abdomen.....		1	1						1
Right tibia, upper extremity, epiphyseal, with traumatic synovitis, right knee joint.....		1	1						1
Left humerus, supracondyloid, complete, epiphyseal.....		1	1						1
Left ulna and radius, epiphyseal.....		1	1						1
Left sacro-iliac joint, with severe contusion of back and pelvis; partial paralysis of left leg and foot.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
SINUS:									
Right submaxillary region, discharging, following extraction of malar tooth, with suppurative cellulitis (osteomyelitis).....		1	1						1
Right cervical region, discharging, following ancient, compound, comminuted fracture of mandible.....		1	1						1
Right forearm, anterior surface, discharging; foreign body (wood) buried among flexor tendons.....		1	1						1
Right side, following ancient thorocotomy for tuberculous empyema, right lung.....	1			1					1
Right thigh, discharging, following ancient osteomyelitis, right femur...		1	1						1
Right prepatella bursa, discharging, following ancient contusion of knee, with rupture of ligaments and necrosis of head of tibia.....		1	1						1
Left axillary space, discharging, following ancient thorocotomy for empyema.....		1					1	1	
Left gluteal region, discharging, following tuberculosis of left sacro-iliac joint.....		1	1						1
Left thigh, discharging, following necrosis of proximal extremity, left femur, with destruction of entire greater tuberosity.....		1					1	1	
Left leg, sequestrum, following extensive osteomalacia, left tibia.....		1	1						1
Left ankle, discharging, of inner surface; necrosis of lower third of left tibia.....		1					1	1	
Left ankle, discharging, with non-union and necrosis, following compound, comminuted fracture of external and internal malleoli of ankle.		1	1						1
Abdomen, discharging, following median section.....		1	1						1
SPRAIN:									
Right ankle, severe, with rupture of internal and external lateral ligaments.....		1	1						1
Left wrist, severe, with general contusion of face, body and right thigh...		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
SYNOVITIS:									
Right knee, traumatic.....		2	2						2
Left knee, traumatic.....		2	2						2
ULCERS:									
Both hands, middle, ring and little fingers, sloughing.....		1	1						1
Both feet and toes (frozen), sloughing; delirium tremens.....		1	1						1
Right cornea, central, with acute, traumatic conjunctivitis, right eye..		1	1						1
Right ankle, varicose.....		1	1						1
Right foot, plantar surface, following ancient, punctured wound.....		1	1						1
Left cornea, extensive, sloughing, with associated conjunctivitis, following severe contusion of eyeball.....		1	1						1
Left cornea, perforating, with empyema of anterior chamber.....		1	1						1
Left leg, anterior surface, extensive, sloughing, following ancient, compound fracture of both bones.....		1	1						1
Left ankle, inner surface, specific.....	1			1					1
Left foot, plantar surface, trophic.....	1		1						1
Left first, second, third and fourth toes, sloughing (frozen).....		1	1						1
WOUNDS—CONTUSED AND ABRAISED:									
Left foot, dorsal surface.....		1	1						1
WOUNDS—GUNSHOT:									
Both legs and thighs, penetrating.....	1		1						1
Left forearm, with extensive laceration of supinator longus muscle.....		1	1						1
Left thigh, ancient, infected.....		1	1						1
Left leg, outer surface, with .32 calibre bullet lodged in muscle.....		1	1						1
WOUNDS—INCISED AND INFECTED:									
Right inguinal region, following hernia-ectomy.....		1	1						1
WOUNDS—LACERATED:									
Scalp and left arm, extensive, multiple		1	1						1
Scalp; oblique fracture, right femur, middle third.....	1		1						1
Scalp; hematoma of calf of left leg, following contusion.....	1		1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
WOUNDS—LACERATED (Continued):									
Scalp, extensive; severe contusion of back and chest.....		1	1						1
Forehead, deep.....		1	1						1
Tongue and chin.....		1	1						1
Neck, extensive, of anterior region, with complete division of both sterno-hyoid and sterno-thyroid muscles, and division of larynx.....		1	1						1
Right lower eyelid, with division of lachrymal duct, and general contusion of head and body.....		1	1						1
Right wrist, extensive, with complete division of all extensors to thumb (tinea sycosis).....		1	1						1
Right thigh, extensive, with complete division of all extensor muscles.....		1	1						1
Right knee, involving prepatella bursa and joint.....		1	1						1
Right ankle, involving joint, deep....		1	1						1
Right foot, dorsum.....		1	1						1
Left temporal region, deep, with division of temporal artery; laceration of scalp.....		1	1						1
Left temporal region, extensive, with partial division of temporal muscle; stab wound of left infraclavicular region.....		1	1						1
Left temporal region, left wrist and right thumb.....		1	1						1
Left wrist, deep, with complete division of flexor carpi ulnaris and palmaris longus and median nerve.....		1	1						1
Left thigh, anterior surface, deep....		1	1						1
Left leg, with partial division of tabialis anticus muscle.....		1	1						1
Perineum, extensive, with complete division of sphincter ani; bilateral laceration of cervix; rectocele and cystocele.....		1						1	1
Perineum, extensive, involving sphincter ani; posterior laceration of cervix		1						1	1
WOUNDS—LACERATED AND CONTUSED:									
Scalp, with severe contusion of left eye, and general contusion of body.....		1	1						1
Scalp, with laceration of left thumb, and punctured wound of left forearm		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
WOUNDS—LACERATED AND CONTUSED (Continued):									
Scalp and right forearm, multiple.		1	1						1
Scalp, extensive.		1	1						1
Scalp, extensive, multiple; severe contusion of pelvis, and fracture of third and fourth left ribs.		1	1						1
Scalp, extensive, and severe contusion of left shoulder.		1	1						1
Face, neck, chest and arms, multiple, with traumatic conjunctivitis of left eye, and powder burns, third degree, of right arm and chest.	1		1						1
Right upper and lower eyelids, extensive; right eyeball, left parietal region, and lower lip.		1	1						1
Right ear, with severe contusion of both temporal regions.		1	1						1
Right elbow, involving bursa, and olecranon process of ulna.		1	1						1
Right hand, extensive, of dorsum, with division of extensor tendon of middle finger, involving joint.		1	1						1
Right ankle, anterior surface, with division of tendon of tibialis, anterior muscle.		1	1						1
Right heel and ball of right great toe.		1	1						1
Right foot, dorsum, and anterior surface of leg, multiple, due to explosion of dynamite.		1	1						1
Left infraorbital region, and outer canthus of eye.		1						1	1
Left cheek, involving anterior nares and mucous surface; severe contusion of left eye.		1	1						1
Left cheek and lower lip, with severe contusion of left maxilla, and loss of lateral incisor tooth.		1	1						1
Left forearm, anterior surface, with partial division of supinator longus muscle.		1	1						1
Left hand, extensive, with complete division of long and short flexors of ring and little fingers.		1	1						1
Left hand, palmar surface.		1	1						1
Left ankle, outer surface; chronic, interstitial nephritis.		1	1						1
Left heel, extensive.		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
WOUNDS—INFECTED:									
Scalp, superficial.....		1	1						1
WOUNDS—LACERATED AND INFECTED:									
Right foot, plantar surface, ancient.....		1	1						1
Left foot, dorsum, ancient.....		1	1						1
WOUNDS—PENETRATING:									
Right foot, plantar surface, nail.....		3	3						3
Right foot, dorsum, bullet, with .22 calibre bullet lodged at base of great toe.....		1	1						1
Left eyeball, with foreign body, steel, lodged in anterior chamber.....		1	1						1
Left thigh, involving knee joint, ancient		1			1				1
WOUNDS—PENETRATING AND INFECTED:									
Right foot, plantar surface, involving metatarso-phalangeal joint of right great toe, ancient.....		1	1						1
WOUNDS—PUNCTURED AND INFECTED:									
Right leg, anterior surface, ancient....		1	1						1
WOUNDS—PUNCTURED:									
Right eyeball, with severe contusion of face.....		1	1						1
Right leg, outer surface, with severe contusion of tissues.....		1	1						1
Right foot, plantar surface, nail.....		1	1						1
Left eyeball, with hemorrhage into anterior chamber, and traumatic conjunctivitis.....		1	1						1
Left thigh and contusion, and abrasion of right thigh.....		1	1						1
Left foot, nail.....	1		1						1
MISCELLANEOUS:									
Abdominal adhesions, following ancient laparotomy.....		1		1					1
Abortion, incomplete.....		3	2			1			3
Abortion, incomplete, complicated by saphremia.....		2	2						2
Abortion, inevitable, complicated by mild saphremia.....		2	2						2
Adenitis, bilateral, cervical, and acute eczema of scalp.....	1		1						1
Adenitis, right cervical, suppurative...		1						1	1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
MISCELLANEOUS (Continued):									
Adenitis, left cervical, tubercular.....		1	1						1
Adenitis, right femoral, suppurative...		3	3						3
Adenitis, left femoral, suppurative; traumatic cataract of left eye.....		1				1			1
Adenitis, left femoral.....		1		1					1
Adenitis, right inguinal, suppurative...		1	1						1
Adenitis, right side, extensive, suppura- tive, complicated by acute, suppura- tive otitis media, right.....	1		1						1
Admitted with mother.....		4	3					1	4
Anemia, severe, following intestinal hemorrhage.....		1	1						1
Anemia, secondary, puerperal; chronic, diffuse nephritis.....	1		1						1
Anemia and asthenia, following instru- mental delivery under chloroform...		1						1	1
Aortic insufficiency.....		1				1			1
Appendicitis, acute, catarrhal.....		1	1						1
Appendicitis, acute, suppurative.....		1	1						1
Appendicitis, gangrenous.....		2	2						2
Appendicitis, ruptured, gangrenous...	2	2	4						4
Appendicitis, ruptured, gangrenous, complicated by general septic peri- tonitis.....	1	1	1			1			2
Appendicitis, ruptured, gangrenous; acute vaginitis, purulent.....		1						1	1
Appendicitis, ruptured, gangrenous; c h r o n i c pulmonary tuberculosis, caseous.....		1						1	1
Asthenia, due to inanition and exhaus- tion (entombed 150 hours).....		9	9						9
Asthma, chronic, bronchial.....		1	1						1
Asthma, chronic, bronchial; arterio- sclerosis.....		1		1					1
Asthma, chronic, bronchial; acute bronchitis.....		1		1					1
Asphyxiation (buried in coal), com- plicated by epilepsy.....		1		1					1
Bronchitis, chronic.....		1	1						1
Carbon monoxide poisoning.....		4	4						4
Carbuncle of neck, with diffuse, suppurative cellulitis of all tissues of neck and scalp.....	1		1						1
Carcinoma of colon (aortic insuffi- ciency) and chronic, interstitial neph- ritis.....		1	1						1
Carcinoma, recurrent, of cervix uteri, following ancient hysterectomy.....		1	1						1

HOUSE CASES—Continued

Gastro-enteritis, chronic, complicated by glycosuria.....		1	1						1
Goitre, exophthalmic, and chronic endometritis.....		1		1					1
Hallux valgus, both feet; hammertoe, right second toe; infected bursitis, head of first metatarsal bones, both feet.....		1	1						1
Hematoma of forehead, with mild cerebral concussion; sprain of right wrist.....		1	1						1
Hematoma, right foot, following contusion.....		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
MISCELLANEOUS (Continued):									
Hematoma, right foot, with fracture of proximal phalanx, middle toe.....		1	1						1
Hematoma, left temporal region; fracture of proximal phalanx, left thumb		1						1	1
Hemorrhage, cerebral, and paralysis of right side.....		1						1	1
Hemorrhage, cerebral, with partial left hemiplegia; severe contusion of left arm, elbow and shoulder.....		1						1	1
Hemorrhoids and chronic gastro-enteritis.....		1	1						1
Hydrocele of right spermatic cord, with right indirect inguinal hernia.....		1	1						1
Hydronephrosis, right side.....		2		2					2
Hypertrophy of spleen, luetic.....		1		1					1
Iliocolitis, acute.....		1	1						1
Influenza, acute.....		1	1						1
Intestinal intoxication.....	1		1						1
Intestinal intoxication, acute; parasitic infestation; ascaris lumbricoides....		1	1						1
Jaundice, chronic, catarrhal.....		2	2						2
Jaundice, toxemic, obstructive; luetic hypertrophy of spleen.....		1	1						1
Lepto-meningitis and cerebritis, acute.		1				1			1
Lumbago, acute, and phosphaturia....		1	1						1
Luxation, post, of left hip.....		1	1						1
Luxation of tenth dorsal vertebrae, with severe contusion of lumbar region and traumatic orchitis.....		1	1						1
Malnutrition.....		1	1						1
Mitral insufficiency.....		1	1						1
Mitral insufficiency; tuberculous laryngitis, and caseous, pulmonary tuberculosis.....		1		1					1
Nephritis, chronic, diffuse, and secondary anemia.....		1						1	1
Nephritis, chronic, diffuse, complicating pregnancy (uterine hemorrhage)....		1		1					1
Nephritis, chronic, diffuse, and umbilical hernia.....		1		1					1
Nephritis, chronic, diffuse, complicated by partial right hemiplegia.....		1						1	1
Nephritis, chronic, diffuse; chronic, valvular cardiac disease, complicated by anasarca and pulmonary edema..		1				1			1
Nephritis, chronic, diffuse, complicated by pulmonary edema.....		1				1			1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
MISCELLANEOUS (Continued):									
Nephritis, chronic, diffuse, complicated by chronic, valvular heart disease and anasarca.....		1				1			1
Neurasthenia.....		3	3						3
Neuritis, chronic, of both feet and legs; alcoholic gastritis and chronic, interstitial nephritis.....		1	1						1
New born (instrumental delivery); eclampsia.....		1						1	1
Non-union, following ancient, unreduced fracture of left tibia and fibula, middle third.....		1	1						1
Orchitis, subacute (specific).....		1	1						1
Orchitis, traumatic; hematoma of scrotum, and left indirect, inguinal hernia		1	1						1
Orchitis, subacute, and epididymitis, following acute, specific urethritis...		1						1	1
Osteomalacia, right tibia, involving right ankle and right fibula; decubitis, left heel.....		1						1	1
Osteomyelitis, left tibia.....		1	1						1
Parenchymatous and nephritis, chronic, with associated, catarrhal cystitis.....		1		1					1
Paralysis, partial, musculo spiral, of right arm, following constriction of nerve in contracting cicatrix of outer surface of right arm.....		1	1						1
Paralysis, partial, of extensor muscles of left foot and leg, following ancient spinal injury (locomotor ataxia)....		1		1					1
Paraphimosis.....		2	2						2
Panophthalmitis, right eye, with empyema of anterior chamber.....		1		1					1
Perforation of right corneal ulcer, with associated conjunctivitis (pus in anterior chamber).....		1	1						1
Peritonitis, general, following ruptured gangrenous appendicitis.....		1				1			1
Peritonitis, general, septic, following ruptured pelvic abscess, due to infected self-induced abortion		1				1			1
Peritonitis, acute, following severe contusion of abdomen, and fracture of ninth and tenth left ribs.....		1	1						1
Petit-mal.....		1		1					1
Phimosis.....		38	38						38

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved.	Died	Died in 24 hrs.	Remaining	Total
MISCELLANEOUS (Continued):									
Phimosis and umbilical hernia.....		1	1						1
Pneumonia, acute, croupous, protracted.....		1	1						1
Pneumonia, alcoholic.....		1				1			1
Pneumonia, alcoholic, complicated by delirium tremens.....		1	1						1
Pneumonia, bronchial, acute.....		1	1						1
Pneumonia, bilateral, lobar, complicated by cholecystitis and acute, diffuse nephritis.....		1				1			1
Pneumonia, bilateral, lobar, complicated by chronic nephritis and enteritis.....		1	1						1
Pneumonia, bilateral, lobar; chronic, interstitial nephritis, and diabetes mellitus.....		1					1		1
Pneumonia, right lung, tubercular....		1	1						1
Pneumonia, right lobar, acute.....		3	1				1	1	3
Pneumonia, right lobar, unresolved....		1						1	1
Pneumonia, right lobar (influenza infection), followed by facial erysipelas		1	1						1
Pneumonia, left lobar, unresolved....	1		1						1
Pneumonia, tubercular.....		1				1			1
Poisoning, acute, alcoholic (coma)....		1	1						1
Polyarthrititis, acute, rheumatic.....		1	1						1
Pregnancy at term.....		1		1					1
Prolapse, complete, of rectum.....		2	2						2
Puerperal sepsis.....		1				1			1
Rachitic deformity of spine, chest and both tibiae.....		1		1					1
Rachitis, acute.....		1		1					1
Rheumatic fever, acute.....		1	1						1
Rheumatic fever, acute, complicated by chronic, bronchial asthma.....	1			1					1
Rheumatism, acute, articular.....		1	1						1
Rheumatism, acute, articular, complicated by chronic, bronchial asthma		1		1					1
Rheumatism, acute, articular, complicated by acute, rheumatic endocarditis.....		1	1						1
Rheumatism, chronic, articular.....		1		1					1
Rheumatism, chronic, articular, and hysteria.....		1		1					1
Rupture of external and internal lateral ligaments of right elbow joint, complicated by traumatic arthritis.....		1	1						1
Rupture of anterior and external lateral ligaments, left elbow joint...		1	1						1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
MISCELLANEOUS (Continued):									
Rupture of posterior and external lateral ligaments, left elbow joint, with severe contusion of joint.....		1						1	1
Rupture of external and internal lateral ligaments of right ankle, with traumatic effusion into joint; threatened delirium tremens.....		1	1						1
Rupture of external and internal lateral ligaments of right ankle.....		1	1						1
Saphremia, due to incomplete abortion		2	2						2
Sarcoma of left kidney.....		1			1				1
Septicemia, general, following streptococci infection of left leg.....		1				1			1
Shock, following severe contusion of abdomen.....		1	1						1
Shock, following contact with electric current (11,000 volts), with superficial electric burn of left hand and forearm.....		1	1						1
Slough, extensive, of scalp and left parietal region, involving periosteum, following ancient contusion.....		1				1			1
Spinal caries.....		1		1					1
Stenosis, mitral, and right renal tuberculosis.....		1	1						1
Syphilis, cerebral.....		1				1			1
Tabes-dorsalis.....		1						1	1
Thrombo-phlebitis of entire left internal saphenous vein.....		1						1	1
Thrombosis of right internal saphenous vein and chronic nephritis.....		1						1	1
Tonsillitis, acute, follicular, and acute enteritis.....		1	1						1
Tonsillitis, acute, follicular, and chronic, catarrhal appendicitis.....		1	1						1
Tonsillitis, chronic, suppurative, and bronchitis; acute, miliary tuberculosis.....		1				1			1
Tuberculoma of left cervical region...		2	2						2
Tuberculosis, acute, miliary.....		1				1			1
Tuberculosis, chronic, pulmonary, caseous, complicated by acute gastroenteritis.....		1	1						1
Tuberculosis, acute, pulmonary, complicated by hemoptysis.....		1				1			1
Tuberculosis of left ilium and sacrum, with discharging sinus of left gluteal region.....		1		1					1

HOUSE CASES—Continued

DIAGNOSIS	Remaining	Admitted	Recovered	Improved	Unimproved	Died	Died in 24 hrs.	Remaining	Total
MISCELLANEOUS (Continued):									
Tumor, malignant, of stomach.....		1			1				1
Typhoid fever.....		6	5			1			6
Typhoid fever, complicated by acute meningitis.....		1				1			1
Typhoid fever, complicated by intestinal hemorrhages.....		1						1	1
Typhoid fever, complicated by septic arthritis of right knee and chronic, pulmonary tuberculosis.....		1						1	1
Typhoid fever, complicated by pleurisy, left side.....		1	1						1
Uraemic coma; chronic, parenchymatous nephritis.....		1				1			1
Urinary retention and prostate hypertrophy.....		1	1						1
Vicious union, following comminuted fracture of proximal phalanx of right ring finger.....		1	1						1
Vicious union, following ancient fracture, lower third, of right femur....		1				1			1
Vicious union, following ancient Colles' fracture of left forearm.....		1	1						1

DISPENSARY CASES

The following is a report of the Dispensary Cases treated in the Hospital from June 1, 1915, to June 1, 1916:

DIAGNOSIS	Male	Female	Total
ABSCESSSES:			
Neck, deep.	3		3
Alveolar, of lower jaw.		2	2
Ischio-rectal.	1		1
Right upper eyelid.	2		2
Right infraorbital region.		1	1
Right cheek.		1	1
Right cervical region, superficial.	1		1
Right cervical region.	2		2
Right parotid gland.	1		1
Right hand.	1		1
Right femoral.	1		1
Left temple.		1	1
Left cervical region.	1	2	3
Left cheek.	1	1	2
Left mastoid region.	1		1
Left tonsil.		1	1
Left mammary gland.		1	1
Left pectoral region.	1		1
Left shoulder.	1		1
Left arm.	1		1
Left hand.	3	1	4
Left knee, with suppurative cellulitis, entire left leg.		1	1
AMPUTATION:			
Right index and little fingers, traumatic.	1		1
Right middle finger.	4		4
Right middle and ring fingers.	1		1
Right little finger.	1		1
Left index finger.	1		1
Left middle finger, traumatic.	1		1
Left ring finger, ancient.	1		1
Left ring finger for ankylosis.	1		1
Left little finger, traumatic.	1		1
Left little finger, traumatic; compound fracture of ring finger, and simple fracture of middle finger.	1		1
Left little finger, traumatic, with compound fracture of ring finger.	1		1
Left little finger, ancient, with compound fracture of ring finger.	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
ANKYLOSIS:			
Right elbow.....	1		1
Right elbow, following fracture of both condyles of humerus and olecranon process.....	1		1
Right wrist.....	1		1
Right knee, partial, following ancient injury.....	1		1
Right knee, following ancient fracture of internal condyle of femur.....	1		1
Right ankle, partial, following Pott's fracture.....	2		2
Right ankle, following compound fracture.....	2		2
Right ankle.....	1		1
Left elbow.....	1		1
Left elbow, following fracture of humerus.....	2	1	3
Left shoulder, following multiple fracture of clavicle....	1		1
ARTHRITIS:			
Right temporo-mandibular articulation.....	1		1
Right shoulder, traumatic.....	8		8
Right shoulder, rheumatic.....	1	3	4
Right arm, traumatic.....	1		1
Right arm, rheumatic.....	1		1
Right elbow.....	1		1
Right knee, traumatic.....	3		3
Right knee, ancient.....	1		1
Right ankle, rheumatic.....	1		1
Right second toe, chronic.....	1		1
Left cheek, rheumatic.....		1	1
Left shoulder, traumatic.....	2	1	3
Left shoulder, traumatic, with partial paralysis of circumflex nerve.....		1	1
Left shoulder and elbow, traumatic.....	1		1
Left elbow, traumatic.....	1		1
Left forearm.....		1	1
Left wrist, traumatic.....	3		3
Left wrist, rheumatic.....		1	1
Left index finger, traumatic.....	1		1
Left hip, rheumatic.....	1		1
Left hip and knee, chronic, traumatic.....	1		1
Left knee, rheumatic.....	1		1
Left knee, traumatic.....	3		3
Left knee, chronic.....	1		1
Left knee, acute.....		1	1
Left ankle, acute.....	2		2
Left ankle, rheumatic.....	1		1
Lower jaw, chronic.....		1	1
AVULSION:			
Lower lip.....	1		1
Right thumb nail.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
AVULSION (Continued):			
Right thumb nail, and contused laceration.....	1		1
Right index finger.....	1		1
Right index finger nail.....	1		1
Right middle finger tip.....	1		1
Right middle finger nail.....	6	1	7
Right ring finger nail, partial.....	1		1
Right ring finger nail.....	3		3
Right little finger nail.....	1		1
Right great toe nail.....	1		1
Right second and third toe nails.....	1		1
Right third toe nail.....	1		1
Left ear, partial.....	2		2
Left thumb nail.....	3		3
Left index finger nail.....		1	1
Left index and middle finger nails.....	1		1
Left middle finger nail.....	2	1	3
Left ring finger nail.....	3		3
Left great toe nail.....	1	1	2
BURNS BY CHEMICALS:			
Both eyes, lime.....	1		1
Right eye.....		1	1
Left eye.....		1	1
Left foot, third degree, ancient.....	1		1
Left foot, second degree, hot lard.....		1	1
Left foot, external surface.....	1		1
BURNS BY ELECTRICITY:			
Both eyes.....	1		1
Right hand.....	1		1
Left upper and lower eyelids.....	1		1
Left shoulder and back.....	1		1
BURNS BY FIRE:			
Right upper and lower eyelids.....	1		1
Right scapular region.....	1		1
Right forearm, second degree.....	1		1
Right forearm, infected.....	1	1	2
Right hand.....	1		1
Right hand, middle and ring fingers.....	1		1
Right middle, ring and little fingers.....	1		1
Left upper eyelid.....		1	1
Left elbow and forearm, ancient.....	1		1
Left wrist.....	1		1
Left hand.....	1		1
Left hand, ancient.....		1	1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
BURNS BY GAS:			
Both ears, face and neck.	1		1
Both ears, face, neck and wrists, second degree, ancient	1		1
Both ears, neck and hands, ancient.	1		1
Both ears and neck.	1		1
Face, neck and both hands, ancient.	1		1
Neck.	1		1
BURNS BY HOT WATER:			
Nose.	1		1
Neck.	1		1
Abdomen.	1		1
Right arm.	1		1
Right arm and right thigh.	1		1
Right forearm, third degree.		1	1
Right wrist, ancient.		1	1
Right wrist and hand.	1		1
Right wrist.	1		1
Right hand.	1	2	3
Right thigh.	1		1
Right thigh, infected, ancient.		1	1
Right ankle.	1		1
Right foot.	1		1
Left arm.	2		2
Left arm and right thigh.		1	1
Left forearm, third degree.		1	1
Left middle finger.	1		1
Left thigh.	2	1	3
BURNS BY POWDER:			
Right cheek, ear and forehead.		1	1
Right thumb and fingers.	1		1
BURSITIS:			
Right arm, extensive.	1		1
Right elbow, traumatic.	2		2
Right knee.	3		3
Right knee, acute, suppurative.	1		1
Right knee, with extensive edema of leg.	1		1
Right hip, supertrochanteric.	1		1
Left knee.		1	1
Left heel.	1		1
Left great toe.	1		1
CELLULITIS:			
Right cheek.	1		1
Right mastoid region, suppurative, complicated by periostitis.	2		2
Right mastoid region, suppurative.	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
CELLULITIS (Continued):			
Right submental region, involving tissues of floor of mouth.....		1	1
Right elbow.....	2		2
Right elbow, involving bursa, suppurative.....	3		3
Right forearm.....		1	1
Right hand, suppurative.....	5		5
Right hand, following contusion.....	1		1
Right thumb, suppurative.....	2		2
Right thumb, involving hand.....		1	1
Right index finger, gangrenous.....	1		1
Right index finger, suppurative.....	2		2
Right knee.....	3		3
Right leg, suppurative.....	1		1
Right ankle, suppurative.....	2		2
Right foot, plantar surface, following ancient, punctured nail wound.....	1		1
Right foot, suppurative.....	2		2
Left cervical region.....	1	1	2
Left cheek.....	1		1
Left elbow, suppurative, and bursitis.....	1		1
Left forearm, localized.....	1		1
Left wrist.....	1		1
Left hand, suppurative.....	7	4	11
Left hand, gangrenous.....	2		2
Left thumb, suppurative.....	2		2
Left index finger, gangrenous.....	1		1
Left index finger, involving joint.....	1		1
Left index finger, suppurative.....	1	1	2
Left middle finger, suppurative.....	1		1
Left ring finger and dorsum of hand.....	1		1
Left ring finger, involving flexor tendon.....	1		1
Left little finger, involving joint.....	1		1
Left leg.....	1		1
Left knee.....	2		2
Left heel.....	1		1
Left foot, suppurative.....	1		1
Mouth.....	1		1
Throat and floor of mouth.....	1		1
Upper lip, suppurative.....	1		1
Pelvis, chronic.....		1	1
Both legs.....		1	1
CONCUSSION:			
Brain.....	3		3
Brain, ancient, complicated by epilepsy.....	1		1
CONTUSION:			
Face.....		1	1
Face and nose (intoxicated).....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
CONTUSION (Continued):			
Nose.....	1		1
Nose and left eye.....	1		1
Chest.....	6	1	7
Chest and back.....	1		1
Chest and right ankle.....	1		1
Chest, back and left knee.....	1		1
Back, severe.....	11		11
Back, ancient.....	1		1
Back, right thigh and right knee.....	1		1
Abdomen, severe.....	1		1
Body, general, right arm, elbow and hand.....	1		1
Both elbows, severe.....	1		1
Pelvis.....	1		1
Sacrum, ancient.....	1		1
Sacrum.....	1		1
Right eye.....	1		1
Right eyebrow, with necrosis of frontal region.....		1	1
Right cheek.....	1		1
Right malar region.....	1		1
Right mastoid region, ancient.....	1		1
Right shoulder, severe.....	5	1	6
Right shoulder, severe, and traumatic synovitis.....	1		1
Right arm, severe.....	2		2
Right elbow and forearm, severe.....		1	1
Right elbow; chemical burn, turpentine.....		1	1
Right elbow, severe.....	2		2
Right wrist, severe.....	2		2
Right hand, severe.....	6		6
Right index finger, severe.....	1		1
Right thumb, severe.....	3		3
Right middle finger.....	1		1
Right side.....	1		1
Right hip and buttocks, severe.....	1		1
Right hip, severe.....	2		2
Right hip, and fracture of ninth and tenth ribs, right side.....	1		1
Right thigh, with under-facialata.....	1		1
Right thigh, ancient, severe.....	2	1	3
Right thigh, and herpes labialis.....	1		1
Right knee and back.....	1		1
Right leg, severe.....	4		4
Right leg, and impetigo of right ear and left wrist.....		1	1
Right ankle, severe.....	2		2
Right foot, and sprain of right ankle.....	1		1
Right foot, severe.....	2	1	3
Right foot, and contused laceration of ankle.....	1		1
Right foot, ancient.....	2		2
Right second toe.....	1		1
Left eye.....	7		7

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
CONTUSION (Continued):			
Left malar region.....	1	1	2
Left breast.....		1	1
Left shoulder, severe.....	5	1	6
Left arm.....	3	1	4
Left elbow, severe.....	6	1	7
Left forearm, severe.....	1		1
Left wrist, severe.....	2		2
Left hand, severe, with fracture of fourth metacarpal bone.....	1		1
Left hand, severe.....	5		5
Left hand, severe, with fracture of first metacarpal bone	2		2
Left thumb.....	2		2
Left thumb, ancient.....	1		1
Left middle and ring fingers.....	1		1
Left hip, severe.....	1		1
Left thigh and arm.....	1		1
Left knee.....	2		2
Left knee, ancient.....	1		1
Left leg, severe.....	2		2
Left ankle.....	1		1
Left ankle, ancient.....	1		1
Left foot.....	5	1	6
Left second toe, severe.....	1		1
Left fourth toe.....	1	1	2
CRUSH:			
Right hand, with fracture of proximal phalanx, right little finger.....	1		1
Right thumb, ancient; compound fracture of distal phalanx.....	1		1
Right thumb.....	1		1
Right index finger, and avulsion of nail.....	1		1
Right index finger.....	2		2
Right middle finger, with compound fracture.....	1		1
Right middle finger.....	6		6
Right middle finger, ancient.....	1		1
Right ring finger, and fracture.....	1		1
Right ring finger.....	3		3
Right ring finger, and contusion of thumb.....	1		1
Right ring and little fingers.....	1		1
Right little finger.....	1		1
Right little finger, ancient.....	1		1
Left hand, with fracture of proximal phalanges, index, middle and ring fingers.....	1		1
Left thumb, with compound fracture of distal phalanx, involving joint.....	2		2
Left thumb.....	4		4
Left thumb, with avulsion of nail.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
CRUSH (Continued):			
Left index finger, with compound fracture of distal phalanx, and contused laceration of right index finger.	1		1
Left index finger, ancient.	1		1
Left index finger, ancient, infected.	1		1
Left index finger.	3		3
Left index and middle fingers.	1		1
Left middle finger.	1		1
Left middle finger, with compound fracture.	1		1
Left middle finger, ancient.	2		2
Left middle finger, with compound fracture of distal phalanx.	2		2
Left middle finger, with avulsion of distal phalanx.	1		1
Left middle and ring fingers, ancient.	1		1
Left ring finger, ancient.	1		1
Left ring finger.	3		3
Left little finger.	6		6
Left little finger, with compound fracture of distal phalanx.	1		1
DERMATITIS:			
Hands, arms and forearms, venenata.	2		2
Left foot.	1		1
DISLOCATION:			
Dorsal vertebrae, ancient, and contusion of back.	1		1
Right humerus, subclavicular.	1		1
Right semilunar bone.	2		2
Right elbow, with rupture of ligaments.		1	1
Right metacarpal bones.		1	1
Right thumb, ancient.	1		1
Right index finger, ancient.	1		1
Right little finger, traumatic.	1		1
Right little finger, ancient.	1		1
Right hip, congenital.	2		2
Right great toe.	1		1
Left shoulder, subglenoid.	1		1
Left elbow, lateral.	1		1
Left wrist, semilunar cartilage.	1		1
Left fifth metacarpal bone.	1		1
Left thumb, distal phalanx.		1	1
Left carpal bone, ancient, unreduded.	1		1
Left knee, ancient, semilunar cartilage.	1		1
EARS:			
Impacted cerumen, both.	6	7	13
Impacted cerumen, right	3		3
Impacted cerumen, left.	3		3

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
EARS (Continued):			
Impaired hearing.....	1		1
Mastoiditis, chronic, suppurative, right.....		1	1
Otitis media, acute, catarrhal, right.....	1		1
Otitis media, chronic, catarrhal, both.....	1		1
Otitis media, acute, catarrhal, left.....	1		1
Otitis media, chronic, purulent, both.....	2		2
Otitis media, chronic, purulent, right.....	3		3
Otitis media, chronic, purulent, left.....	1	1	2
Otitis media, acute, both.....	1		1
Otitis media, acute, left.....	2	1	3
Otitis media, purulent, both.....	3		3
Otitis media, purulent, right.....	1		1
Otitis media, purulent, left.....	2		2
Otitis media, chronic, right.....		1	1
Otitis media, chronic, left.....		1	1
Otitis media, suppurative, right.....	3		3
Otitis media, suppurative, left.....	2		2
Otorrhea, acute, both.....	1	3	4
Otorrhea, acute, right.....	3	1	4
Otorrhea, acute, left.....	2	2	4
Otorrhea, chronic, both.....	1	1	2
Otorrhea, chronic, left.....	1		1
Otorrhea, purulent, left.....	2		2
Otorrhea, right, with cellulitis, right cervical region....	1		1
ECZEMA:			
Scalp.....	1	2	3
Scalp, seborrhaic.....		3	3
Scalp and face, acute.....	3	1	4
Face, acute.....	7	3	10
Face, squamous.....	1		1
Face, acute, and adenitis of neck.....		1	1
Face and body, acute.....		1	1
Nose, seborrhaic.....		1	1
Neck.....		1	1
Both ears.....	1		1
Both elbows, anterior surface.....	1		1
Both hands.....	1	1	2
Both hands, squamous.....	1		1
Both inguinal regions.....	1		1
Both legs, pustular.....		1	1
Both axillas.....	1		1
Both buttocks, acute.....	1		1
Both feet.....	1		1
Right ear.....		1	1
Right axilla.....		1	1
Right hand.....		1	1
Right ankle, chronic, rhubrum.....		1	1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
ECZEMA (Continued):			
Right ankle.....	1		1
Left ear.....		1	1
Left breast.....		2	2
Left forearm.....	1		1
Left hand, acute, and acute dermatitis.....		1	1
Papular.....	1		1
FOREIGN BODIES:			
Throat, pin.....	1	1	2
Throat.....		1	1
Stomach, pin.....	1		1
Both eyes, dirt.....	1		1
Both eyes, lime.....		1	1
Right eye, with traumatic conjunctivitis.....	1		1
Right eye, dirt.....	4	1	5
Right eye, coal.....	7		7
Right eye, steel.....	1		1
Right eye, coal, with traumatic ulcer.....		1	1
Right ear, coal.....	1		1
Right nostril, shoe button.....		1	1
Right hand, splinter.....	1		1
Right hand, needle.....		1	1
Right hand, glass.....		2	2
Right thumb, splinter.....		1	1
Right index finger, glass.....	1		1
Right index finger, steel.....	1		1
Right middle finger, coal.....	1		1
Right middle finger.....		1	1
Right ring finger, with cellulitis.....	1		1
Right ring finger, glass.....		1	1
Right knee, splinter.....		1	1
Left eye, coal.....	7		7
Left eye, coal, and traumatic ulcer.....	1		1
Left eye, steel.....	3		3
Left eye, dirt.....		1	1
Left ear.....	1		1
Left hand, wood.....	2		2
Left foot, needle.....	1	1	2
Left forearm, steel.....	1		1
Left thigh.....	1		1
FRACTURE—COMMINUTED:			
Right radius.....	1		1
Right radius, middle third, and simple fracture, right ulna.....	1		1
Right index finger.....	1		1
Right little finger, proximal phalanx.....	1		1
Right tibia, ancient.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
FRACTURE—COMMUNUTED (Continued):			
Right great toe, ancient.....	1		1
Left radius.....		1	1
FRACTURE—COLLES':			
Right radius, ancient, unreduced.....	1	1	2
Right radius.....	2		2
Left radius.....		1	1
FRACTURE—COMPOUND:			
Symphysis of mandible, ancient.....	1		1
Right radius.....	1		1
Right fourth metacarpal bone.....	1		1
Right thumb.....	3		3
Right middle finger, and crush of right index finger....	1		1
Right ring finger.....	1		1
Right tibia, ancient.....	1		1
Right fourth and fifth metatarsal bones, with division of extensor tendons.....	1		1
Left radius.....	1		1
Left thumb.....	1	1	2
Left index finger.....	1		1
Left ring finger.....	1		1
Left ring finger, and contused laceration of left middle finger.....	1		1
FRACTURE—GREENSTICK:			
Right clavicle, with severe contusion of shoulder joint..	1		1
Right forearm, both bones.....	1		1
Right forearm, both bones, ancient.....	1		1
Right radius, middle third.....		1	1
Left forearm, both bones.....	2	1	3
FRACTURE—POTT'S:			
Right ankle, ancient, ununited, with rupture of external lateral ligaments.....	1		1
Right ankle, internal and external malleolus, ancient, unreduced.....	2		2
Right ankle, ancient.....	1	1	2
FRACTURE—SIMPLE:			
Right scapula, acromial process.....	1		1
Right scapula, and laceration of scalp.....	1		1
Right clavicle, ancient, unreduced.....	1		1
Right clavicle.....		3	3
Right shoulder, acromial process, and laceration of shoulder.....	1		1
Right humerus.....		1	1
Right humerus, ancient, and ulcer of left parietal region	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
FRACTURE—SIMPLE (Continued):			
Right humerus, second, third and fourth right ribs and base of skull.....	1		1
Right humerus, ancient.....	1	1	2
Right ulna, ancient, unreduced.....	1		1
Right ulna.....	1	1	2
Right ulna, ancient.....	1		1
Right radius.....	3	3	6
Right radius, ancient, unreduced.....	1	2	3
Right forearm, both bones.....	2		2
Right wrist, both bones.....	1		1
Right fourth metacarpal bone.....	1		1
Right second metacarpal bone.....	1		1
Right second metacarpal bone, ancient, unreduced.....	1		1
Right fifth metacarpal bone.....	2		2
Right fourth and fifth metacarpal bones.....	1		1
Right thumb.....	2	1	3
Right thumb, ancient, unreduced.....	2		2
Right thumb, with severe contusion of hand.....	1		1
Right little finger, ancient, unreduced.....	3		3
Right little finger.....	1		1
Right fourth rib.....	2		2
Right fourth and fifth ribs.....		1	1
Right fifth rib.....	1		1
Right sixth rib.....	1		1
Right sixth and seventh ribs.....	1		1
Right eighth rib.....	2		2
Right eighth and ninth ribs, with severe contusion of chest.....	1		1
Right ninth and tenth ribs.....	1		1
Right tenth rib.....	2		2
Right tenth and eleventh ribs, and contusion of sacral region.....	1		1
Right eleventh and twelfth ribs.....	1		1
Right ribs, ancient.....		1	1
Right fibula, upper third, ancient.....	1		1
Right first metatarsus, ancient.....	1		1
Right fifth metatarsus.....	1		1
Right metatarsus.....	1		1
Left scapula.....	2		2
Left scapula, acromial process (amputation in upper third).....	1		1
Left clavicle.....	4	2	6
Left clavicle, glenoid cavity, and severe contusion of shoulder.....	1		1
Left clavicle, ancient.....		1	1
Left humerus, ancient.....	1		1
Left humerus.....	3		3

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
FRACTURE—SIMPLE (Continued):			
Left humerus, with severe contusion of elbow.....	1		1
Left ulna, coricoid process, ancient, unreduced.....	1		1
Left ulna, styloid process.....	1		1
Left ulna and radius.....	1		1
Left radius, ancient, unreduced.....	2		2
Left radius, middle third.....	1		1
Left metacarpal bones.....		1	1
Left thumb.....	2		2
Left middle finger, ancient, unreduced.....	2		2
Left fourth rib.....	1		1
Left fourth and fifth ribs, with puncture of lung, ancient	1		1
Left sixth and seventh ribs, with acute bronchitis.....		1	1
Left seventh rib.....	2		2
Left ninth and tenth ribs, ancient.....		1	1
Left tibia, spiral.....	1		1
Left tibia, ancient.....		1	1
Left second, third and fourth metatarsal bones.....	1		1
Left third metatarsal bone.....	2		2
Left great toe, ancient.....	2		2
Nose, and contusion of right temporal region.....	1		1
Nose, ancient.....	2		2
Nose.....	3		3
Nosc, ancient, unreduced.....		1	1
Maxilla.....		1	1
Mandible, ancient.....	1		1
Mandible, left ramus.....	1		1
Sternum.....	2		2
Coccyx, ancient.....	1		1
FRACTURE-DISLOCATION:			
Right fourth metatarsal bone.....	1		1
FURUNCLES:			
Right temporal region.....	1		1
Right ear.....	2		2
Right cheek.....	1	1	2
Right cervical region.....	1		1
Right axilla.....	1	1	2
Right elbow.....	2		2
Right forearm.....	1	1	2
Right inguinal region.....	1		1
Right leg and thigh.....	1		1
Left eyebrow.....	1		1
Left ear.....	1		1
Left elbow and forearm.....	1		1
Left forearm.....	8	3	11

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
FURUNCLES (Continued):			
Left hand.....	1		1
Left knee.....	2	1	3
Left leg.....	2		2
Both thighs, multiple.....	1		1
Scalp.....		1	1
Nose.....	1	2	3
Neck.....	7	1	8
Body.....	1		1
HERNIA:			
Inguinal, bilateral.....	2		2
Inguinal, bilateral, and erythema of gluteal region.....	1		1
Inguinal, bilateral, congenital, and phimosis.....	1		1
Inguinal, bilateral, indirect.....	4		4
Inguinal, right, recurrent.....	1		1
Inguinal, right indirect, congenital.....	1		1
Inguinal, right direct.....	1	1	2
Inguinal, right indirect.....	2		2
Inguinal, right direct, congenital.....	1		1
Inguinal, right, congenital, and phimosis.....	1		1
Inguinal, left indirect.....	3		3
Inguinal, left.....	2		2
Inguinal, left indirect, and hematoma of scrotum.....	1		1
Umbilical, and infected umbilicus.....		1	1
Umbilical, and chronic nephritis.....		1	1
Umbilical, and flatulency.....		1	1
Umbilical, and phimosis.....	1		1
Umbilical, congenital, and acute enterocolitis.....	1		1
Umbilical.....	2	2	4
NECROSIS:			
Mandible, following partial extraction of molar.....	1		1
Turbinates, inferior.....	1		1
Right and left parietal bones.....		1	1
Right tibia at head.....	1		1
ORGANS OF VISION:			
Abscess of right eye, with acute conjunctivitis.....	1		1
Blepharitis, both eyes.....	3	2	5
Cataract, right eye.....		1	1
Cataract, right eye, ancient, traumatic.....	1		1
Cataract, left eye, traumatic.....	1		1
Conjunctivitis, both eyes, traumatic.....	4		5
Conjunctivitis, both eyes, acute.....	1	2	3
Conjunctivitis, both eyes, purulent.....		2	2
Conjunctivitis, right eye, acute.....	4	3	7
Conjunctivitis, right eye, granular.....	1		1
Conjunctivitis, right eye, traumatic.....	5		5
Conjunctivitis, right eye, vernal.....		2	2

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
ORGANS OF VISION (Continued):			
Conjunctivitis, left eye, acute.....	3	1	4
Conjunctivitis, left eye, traumatic.....	10		10
Conjunctivitis, left eye, vernal.....		1	1
Conjunctivitis, left eye, suppurative.....	1		1
Conjunctivitis, left eye, purulent.....	1	1	2
Conjunctivitis and keratitis, both eyes, interstitial (specific).....		1	1
Conjunctivitis and keratitis, both eyes, acute.....		1	1
Conjunctivitis and keratitis, right eye, acute.....	1		1
Conjunctivitis and keratitis, left eye, acute.....	1		1
Hordeolum, right upper eyelid.....	1	2	3
Hordeolum, right upper eyelid, and furunculosis of right arm.....	1		1
Hordeolum, right lower eyelid.....	3		3
Hordeolum, left upper eyelid.....	2	1	3
Hordeolum, left lower eyelid.....	2		2
Keratitis, left eye, traumatic, interstitial.....	1		1
Keratitis, interstitial, and granular conjunctivitis, left eye.....	1		1
PERIOSTITIS:			
Frontal bone, and acute frontal sinusitis.....		1	1
Mandible.....	1		1
Both tibias, specific.....		3	3
Right tibia.....	1	1	2
Right tibia, ancient, rheumatic.....	1		1
Left tibia.....	3	1	4
SEPARATION:			
Right humerus, epiphyseal.....	1		1
Right radius, epiphyseal.....	2	3	5
Right wrist, ancient, epiphyseal.....		1	1
Right forearm, both bones, epiphyseal.....	2		2
Right tibia, epiphyseal.....		1	1
Right tibia, epiphyseal, ancient.....	1		1
Left radius, epiphyseal.....	2	3	5
Left radius, epiphyseal, and dislocation of ulna and navicular bones.....	1		1
SINUS:			
Right cervical region, discharging.....	1		1
Right forearm, following ancient operation for necrosis of ulna.....	1		1
Left cervical region, following incision of tubercular glands.....		1	1
Left cheek (caries of teeth).....	1		1
Left antrum of Highmore, following drainage.....	1		1
Left forearm, following ancient, punctured wound.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
SINUS (Continued):			
Left hand, following ancient bullet wound, with comminuted fracture of left middle finger.....	1		1
Left ring finger, following ancient, compound fracture..	1		1
Left hip.....	2		2
Abdomen, following ancient, median section, discharging.....		1	1
Rectum, following operation for ischio-rectal abscess	1		1
SPRAIN:			
Right wrist, severe.....	9	1	10
Right wrist, ancient.....		1	1
Right ankle.....	4		4
Right ankle, ancient.....	1		1
Right thumb.....	2		2
Left wrist.....	4		4
Left knee.....		1	1
Left knee, ancient.....	1		1
Left ankle.....	5		5
Left ankle, ancient.....	1		1
Left ankle, and fracture of fourth right rib.....	1		1
Back, severe.....	10		10
Back, ancient.....	2		2
Back, and cystitis.....	1		1
Abdomen, muscles.....	1		1
SYNOVITIS:			
Right shoulder, traumatic.....	3		3
Right shoulder, with bursitis.....	1		1
Right elbow, traumatic.....		1	1
Right knee, traumatic.....	8		8
Right knee, acute.....	1		1
Left shoulder, traumatic.....	2		2
Left knee, traumatic.....		1	1
Left knee, acute.....	1		1
Left knee, with bursitis, acute.....	1		1
Left knee, traumatic, ancient.....	1		1
ULCERS:			
Scalp.....	13		13
Scalp, following ancient, compound fracture.....	1		1
Face, neck, ears and hands, following gas burns.....	1		1
Face, neck, ears and right arm, following third degree gas burns.....	1		1
Face, ears and hands, following third degree gas burns..	1		1
Face, following burns by steam.....	1		1
Neck, both ears and both hands, following gas burns...	3		3
Neck and ears, following third degree gas burns.....	2		2
Neck and right ear, following gas burns.....	1		1
Ears, following gas burns.....	1		1
Nose, following second degree burns by gas.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
ULCERS (Continued):			
Submental region.....	1		1
Upper lip.....		1	1
Both hands, middle ring and index fingers.....	1		1
Both index fingers, sloughing.....	1		1
Abdomen, following appendectomy.....	1		1
Duodenal, chronic.....	2		2
Stomach.....	1		1
Penis, specific.....	1		1
Both buttocks, following burns.....	1		1
Both legs, following ancient scald.....		1	1
Right scapular region.....		1	1
Right cervical region, and purulent otitis media.....	1		1
Right cervical region.....	3		3
Right temporal region.....	1		1
Right temporal region, following ancient powder burn..	1		1
Right infraorbital region.....	1		1
Right ear, following ancient contusion.....	1		1
Right eye, traumatic, with foreign body.....	1		1
Right elbow, following suppurative bursitis.....	1		1
Right elbow, following severe contusion, involving joint	1		1
Right forearm, following ancient crush.....	1		1
Right wrist, following incision for foreign body.....	1		1
Right hand.....	1		1
Right hand, dorsum, following crush.....	1		1
Right hand, following third degree burns.....	1		1
Right wrist, index and middle fingers.....		1	1
Right middle finger.....	1		1
Right little finger.....	1		1
Right hypochondrium region, specific.....		1	1
Right femoral region.....	2		2
Right inguinal region.....	2		2
Right loin.....	2		2
Right leg.....	1		1
Right leg, traumatic.....	3		3
Right leg, trophic, specific.....		1	1
Right leg, following ancient, punctured wound.....	1		1
Right leg, varicose.....		1	1
Right leg, following Pott's fracture.....	1		1
Right knee.....	4	1	5
Right knee, following ancient abrasion.....	1		1
Right ankle.....	4		4
Right heel.....	2		2
Right foot.....	3	1	4
Right foot, following tenorrhaphy.....	1		1
Right foot, following compound fracture of fourth and fifth toes.....	1		1
Right foot, following excision of bullet.....	1		1
Left temporal region.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
ULCERS (Continued):			
Left scapular region, sloughing.....		1	1
Left parietal region, following compound, depressed fracture of skull.....	1		1
Left occipital region, following ancient operation.....	1		1
Left cervical region.....	2		2
Left eye, perforating.....		1	1
Left eye, recurrent.....		1	1
Left eye, specific.....		1	1
Left eye, traumatic, and conjunctivitis.....	1		1
Left eyebrow, following ancient laceration.....	1		1
Left ear.....	1		1
Left mastoid region, following operation.....	1		1
Left mastoid region.....	1		1
Left arm and left axilla, following scald.....		1	1
Left elbow.....	2		2
Left forearm.....	2		2
Left forearm, following ancient electrical burn.....	1		1
Left wrist, following tenorrhaphy.....		1	1
Left hand.....	1	1	2
Left hand, traumatic.....	2		2
Left hand, left leg and scalp, following burns.....	1		1
Left hand, following ancient gas burns.....	1		1
Left thumb, following crush.....	1		1
Left ring finger.....	1	1	2
Left thigh.....	1		1
Left thigh, following ancient, compound fracture of left femur.....	1		1
Left knee.....	5	2	7
Left knee, traumatic.....	2		2
Left knee, and ancient fracture of right tibia.....	1		1
Left leg, traumatic.....	2		2
Left leg, varicose.....	1	1	2
Left leg.....	4	2	6
Left leg and ankle, following ancient scald.....	1		1
Left leg, specific.....	1	1	2
Left ankle.....	1	1	2
Left ankle, varicose.....		1	1
Left ankle, traumatic.....	2		2
Left foot, specific.....		2	2
Left foot.....	5		5
Left great toe.....	2	1	3
Left fourth toe.....	1		1
Left little toe.....		1	1
WOUNDS—ABRASIONS:			
Right eyebrow and chest.....		1	1
Right forearm.....	1		1
Right knee.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
WOUNDS—ABRASIONS (Continued):			
Right knee, and fracture of left forearm.....	1		1
Right index finger.....	1		1
Right leg, anterior surface.....	2		2
Left temporal region, ancient, infected.....		1	1
Left elbow.....	1		1
Left hip, ancient.....	1		1
Face.....	1		1
WOUNDS—CONTUSED AND ABRAISED:			
Right middle and ring fingers.....	1		1
Right elbow.....	1		1
Left arm and elbow.....	1		1
Left hand, dorsum, and right hand, palm.....	1		1
Left middle, ring and little fingers.....	1		1
Nose.....	1		1
Face.....	1		1
WOUNDS—GUNSHOT:			
Scalp, face and left hand.....	1		1
Right hand.....	1		1
Right index finger, penetrating.....	1		1
Right thigh.....	1		1
Left hand, penetrating.....	1		1
Left leg, penetrating.....	1		1
WOUNDS—INCISED:			
Right little finger and dorsal surface of hand.....	1		1
Right heel.....	1		1
Left thumb.....		1	1
Left leg.....	1		1
WOUNDS—INCISED, INFECTED:			
Left elbow.....	1		1
WOUNDS—INFECTED:			
Right forearm, deep.....	2		2
Right wrist.....	1		1
Right hand.....	6		6
Right thumb.....	3	1	4
Right index finger.....	1		1
Right index finger, following ancient laceration.....	1		1
Right middle finger, superficial.....	3		3
Right ring finger.....		1	1
Right little finger, streptococci and lymphangitis of right arm.....		1	1
Right foot, superficial.....		1	1
Right third toe.....	1		1
Left temporal and right occipital region, deep.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
WOUNDS—INFECTED (Continued):			
Left upper eyelid.....	1		1
Left submaxillary gland.....	1		1
Left hand, superficial.....	3		3
Left thumb.....	3	1	4
Left index finger.....	4	2	6
Left middle finger.....	1		1
Left index and middle fingers.....	1		1
Left foot, superficial.....		1	1
Left great toe, superficial.....	2	1	3
Scalp, superficial.....	1		1
Scalp, deep.....		1	1
Upper lip, following contused laceration.....	1		1
Umbilicus.....	2	1	3
WOUNDS—LACERATED:			
Scalp.....	38	1	39
Scalp, ancient.....	1		1
Scalp, forehead and right little finger.....	1		1
Scalp and face.....	1		1
Scalp, and hematoma of right eyebrow.....	1		1
Scalp, and multiple, contused lacerations of neck.....	1		1
Scalp and right index finger.....	1		1
Forehead.....	9	1	10
Upper lip.....	1		1
Upper lip and chin.....	1		1
Lower lip.....	2		2
Tongue.....	1	1	2
Neck.....	2		2
Back, deep.....	1		1
Perineum, involving sphincter ani.....		1	1
Right temporal region.....	1		1
Right infra-orbital region.....	1		1
Right eyebrow.....	1		1
Right eye, deep and extensive.....		1	1
Right lower eyelid.....	1		1
Right ear.....	3		3
Right mastoid region.....	1		1
Right forearm, deep.....	1		1
Right wrist.....	6	1	7
Right wrist, extensive, with partial division of flexor tendon.....	1		1
Right hand, with complete division of extensor tendon.....		1	1
Right hand, dorsal surface, with partial division of extensor tendon of index finger.....	2		2
Right hand, dorsum, with partial division of extensor tendon of middle finger.....	1		1
Right hand, ancient.....	1		1
Right hand, deep.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
WOUNDS—LACERATED (Continued):			
Right thumb, ancient.....	2		2
Right thumb, with division of extensor tendon.....	1		1
Right thumb.....	5		5
Right index finger.....	6		6
Right index finger, and suppurative cellulitis of little finger.....	1		1
Right middle finger.....	2		2
Right middle finger, with division of extensor tendon..	1		1
Right middle and ring fingers.....	1		1
Right ring finger.....	2		2
Right ring and little fingers.....	1		1
Right thigh.....	1		1

Herpes zoster of back.....	1		1
Herpes zoster, right side of chest.....	1	1	2
Hyperchlorhydria.....	2		2
Hyperthroidism.....		2	2
Hypertrophy of heart.....		1	1
Hypertrophy of right thyroid lobe.....		4	4
Hypertrophy, right mammary gland.....	1		1
Hypertrophy of spleen, luetic.....		2	2
Hypertrophy of spleen and liver, luetic.....	1		1
Hypertrophy of uvula.....	1		1
Hypertrophy of thyroid, bilateral.....		2	2
Hysteria.....		1	1
Impacted feces.....	1		1
Impetigo contagiosa, diffuse.....	1		1
Impetigo contagiosa.....	9	5	14
Impetigo contagiosa of face.....	1	4	5
Impetigo contagiosa of scalp.....		2	2
Impetigo contagiosa of face and ears.....	1	1	2
Impetigo contagiosa of both knees and legs.....	1		1
Impetigo contagiosa of right foot.....		1	1
Impetigo of scalp and neck.....	1		1
Impetigo of chin.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
MISCELLANEOUS (Continued):			
Impetigo of ears.....	2	1	3
Impetigo of right ear.....		1	1
Impetigo of right leg and ulcer of left ankle.....		1	1
Impetigo of legs.....		2	2
Infestation; ascaris lumbricoides.....	1		1
Infestation of right axilla (parasites).....	1		1
Influenza, acute.....	7	3	10
Influenza, gastric, intestinal.....	1		1
Indigestion, acute.....	1		1
Infantile paralysis.....	1		1
Intestinal intoxication.....	2	4	6
Intestinal intoxication and phimosis.....	1		1
Intestinal parasites.....	8	6	14
Intestinal parasites and acute bronchitis.....	1		1
Intestinal intoxication, chronic.....	1		1
Insect bite, upper lip.....		1	1
Improper feeding.....		1	1
Iliocolitis, acute.....	11	9	20
Ivy poisoning, both hands.....		1	1
Jaundice, catarrhal.....	1		1
Jaundice, chronic, catarrhal.....	1		1
Jaundice, toxemic, obstructive.....	2		2
Laryngitis, acute.....	4	3	7
Laryngitis, chronic.....		1	1
Lichen planus, both legs.....	1		1
Lipoma of right cervical region.....	1		1
Lithicosis, right lung.....	1		1
Leucorrhea.....		2	2
Lues, hereditary.....	1		1
Lumbago, acute.....	14	2	16
Malingering.....	1		1
Measles.....	1		1
Meningitis, chronic.....	1		1
Metorrhagia.....		2	2
Mitral regurgitation and tuberculosis, both lungs.....		1	1
Mitral insufficiency.....		2	2
Mitral stenosis.....	1		1
Monoplegia.....	1		1
Mucous patches of mouth.....		1	1
Myositis of left biceps.....		1	1
Naevus of scalp.....		1	1
Naevus of upper lip.....		1	1
Neonatorum, ophthalmic.....		2	2
Nephritis, acute.....	2	3	5
Nephritis, chronic, diffuse.....		1	1
Nephritis, chronic.....	3	8	11
Nephritis, chronic, interstitial.....	1	2	3

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
MISCELLANEOUS (Continued):			
Nephritis, chronic, and catarrhal cystitis.....	1		1
Nephritis, acute, parenchymatous.....		1	1
Nephritis and endometritis, chronic.....		1	1
Nephrolithiasis, right side.....	2		2
Nephroptosis, left.....	1	1	2
Nephroptosis, right.....		1	1
Neuralgia, right cervical region.....		1	1
Neuralgia, lumbar.....		1	1
Neuralgia, intercostal, right side.....	4	1	5
Neuralgia of face.....	1	1	2
Neuralgia, intercostal, left side.....	1	2	3
Neuralgia, left intestinal; chronic gastro-enteritis.....	1		1
Neurasthenia.....	3	3	6
Neuritis, rheumatic, right arm.....		1	1
Neuritis, left arm.....	1		1
Neuritis, rheumatic, left leg.....	1		1
Non-union, following ancient, comminuted fracture of left tibia.....	1		1
Observation, following abortion.....		1	1
Observation, following unresolved pneumonia, left lung.....	1		1
Observation, following carbon monoxide poisoning.....	3		3
Observation, following athenia, due to inanition and exhaustion.....	4		4
Observation, following spinal concussion.....		1	1
Observation, following appendectomy.....	1		1
Observation, following operation for hematoma of scalp.....	1		1
Observation, following operation for right strangulated hernia.....	1		1
Observation, following severe cervical and spinal concussion.....	1		1
Observation, following ancient reduction of dislocation, left hip.....	1		1
Observation, following dislocation of left humerus.....	1		1
Observation, following gas burns of face, ears and hands.....	1		1
Observation, following resection of left elbow joint....	1		1
Observation, following dislocation of left dorsal vertebrae and Pott's fracture, right ankle.....	1		1
Observation, following depressed fracture of skull.....	1		1
Observation, following operation for compound, depressed fracture of right parietal and frontal bone....	1		1
Observation, following compound fracture of third, fourth, fifth and sixth right ribs, coricoid process....	1		1
Observation, following fracture, second, third and fourth left ribs and contusion of shoulder.....	1		1
Observation, following compound, comminuted fracture, right tibia.....	1		1
Observation, following fracture, left third, fourth and fifth ribs.....	1		1

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
MISCELLANEOUS (Continued):			
Observation, following fracture, right femur.....	1		1
Observation, following fracture, right tibia.....	1	1	2
Observation, following fracture, left tibia.....	4		4
Observation, following fracture, left femur.....	1	1	2
Observation, following fracture, right femur.....	1		1
Observation, following fracture, right iliac fossa.....	1		1
Observation, following Pott's fracture, right ankle.....	3		3
Observation, following Pott's fracture, left ankle.....	2		2
Observation, following ancient fracture-dislocation, left ilium.....	1		1
Observation, following severe contusion of abdomen....	1		1
Observation, following severe contusion of chest and right loin.....	1		1
Obstipation.....	1	16	17
Obstipation and subinvolution of uterus.....		2	2
Odema of right foot, following ancient, punctured wound.....	1		1
Onychocryptosis, right great toe.....	2	2	4
Onychocryptosis, left great toe.....	1	3	4
Orchitis, subacute.....	1		1
Osteomalacia, left tibia.....	1		1
Osteomyelitis, both legs.....		1	1
Osteomyelitis, left femur.....	1		1
Ozena, chronic.....	1		1
Papilloma, right middle, ring and little fingers.....	1	2	3
Paralysis of phalangeal muscles.....	1		1
Paralysis, traumatic, of left shoulder (partial).....		1	1
Paralysis, post-diphtheritic.....	1		1
Paralysis of right musculo spiral nerve (partial).....	1		1
Paralysis of left external rectus muscle (eyelid).....	1		1
Paralysis, partial, of left leg and foot, following ancient crush of pelvis.....	1		1
Papilloma of left wrist.....		1	1
Paronychia, right thumb.....		1	1
Paronychia, right index finger.....		1	1
Paronychia, left thumb.....	1		1
Paronychia, left index finger.....	3		3
Paronychia, left ring finger.....		2	2
Parotitis, acute, right side.....	2		2
Parotitis, acute, left side.....	1		1
Pediculosis corporis and toxemic, obstructive jaundice.		1	1
Pediculosis corporis.....	7	3	10
Pediculosis corporis, capitis and pubis.....		1	1
Pemphigus, right ear.....	1	1	2
Pemphigus, fingers of both hands.....		1	1
Pertussis.....	1	2	3
Pharangitis, acute.....	1	1	2

Prolapse of uterus.....		1	1
Proctitis.....	1		1
Psoriasis.....	1		1
Pustules of right leg.....	1	1	2
Puritis ani (diabetic).....		1	1
Pyronephrosis, right.....	1		1
Pyorrhea.....	2	1	3
Redundant prepuce.....	1		1
Retarded dentition.....		1	1
Rheumatism, chronic, articular, and contusion of right hand.....		1	1
Rheumatism, chronic, articular.....	6	3	9
Rheumatism, chronic, muscular.....	1		1
Rheumatism, chronic, and polyarthrits.....		1	1
Rhinitis, acute, catarrhal.....	1	1	2
Rhinitis, acute.....	1	1	2
Rhinitis, chronic, catarrhal.....		3	3
Rhinitis, chronic, trophic.....		1	1
Rhinitis, chronic, and eczema of nose.....		1	1
Rhinitis, specific, atrophic.....		1	1
Rhinitis, chronic.....		1	1
Rubella.....	2	1	3
Rupture of capsular ligaments, right wrist.....	1		1
Rupture, ancient, of sterno costa articulation, third right rib.....	1		1
Rupture of external ligaments, right ankle.....	2	1	3

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total
MISCELLANEOUS (Continued):			
Rupture of external ligaments, left elbow.....	1		1
Rupture of internal ligaments, left ankle.....	1		1
Salpingitis and appendicitis, chronic; acute gastritis...		1	1
Salpingitis and neurasthenia, right side.....		1	1
Salpingitis, left.....		1	1
Salpingo-oophoritis, bilateral, chronic.....		1	1
Salpingo-oophoritis, chronic, of left side.....		2	2
Scar, central, of right cornea.....	1		1
Sciatica, right leg.....	1		1
Sciatica, left leg.....	7		7
Scabies, both hands.....		1	1
Scirrhus of breast, left side, and adenoma, left side of neck.....		1	1
Sclerosis, arterial, and interstitial nephritis.....	1		1
Sclerosis, arterial.....	1		1
Scars, both corneas, multiple.....	1		1
Slough of both pillars, following tonsillectomy.....		2	2
Slough of right heel.....	1		1
Spina bifid.....	1		1
Spinal caries (lordosis).....	1		1
Strabismus, internal, of left eye.....	1		1
Stricture of anterior urethra.....	1		1
Stomatitis, acute.....	1		1
Stomatitis, ulcerated.....	6	4	10
Slough of right middle finger, with necrosis of distal phalanx.....	1		1
Sepsis, puerperal.....		2	2
Subinvolution of uterus.....		3	3
Syringo myilia, acute.....	1		1
Syphilis, hereditary.....		1	1
Syphloderma, squamous.....		1	1
Tabes dorsalis.....	1		1
Tachycardia (nicotine and alcohol).....	1		1
Tachycardia, complicating hypertrophy, left lobe of thyroid.....		1	1
Tachycardium.....	1		1
Talipes planus, both feet.....	2	5	7
Talipes planus, right foot.....		1	1
Talipes planus, left foot.....	1		1
Talipes equino varus, left foot.....		1	1
Tenosynovitis, right forearm.....	2		2
Tenosynovitis, right wrist.....	4		4
Tinea sycosis.....	7		7
Tinea versicola, chest and back.....	1		1
Tinnitus aurium.....	3	2	5
Tonsillitis, acute.....	2		2
Tonsillitis, acute, follicular.....	9	2	11

DISPENSARY CASES—Continued

DIAGNOSIS	Male	Female	Total

Varicose veins, left leg.....		2	2
Vertigo, following concussion of brain.....	1	1	2
Vicious union, left radius, following ancient Colles' fracture.....		1	1

RECORD OF DEATHS

From June 1, 1915, to June 1, 1916

- 1—No. 2580, aged 40 years; admitted April 7, 1915; died June 13, 1915; cerebral abscess.
- 2—No. 2694, aged 35 years; admitted June 5, 1915; died June 6, 1915; shock following fracture at base of skull.
- 3—No. 2729, aged 37 years; admitted June 23, 1915; died June 23, 1915; shock due to hemorrhage following injuries.
- 4.—No. 2764, aged 62 years; admitted July 8, 1915; died August 7, 1915; bronchial pneumonia.
- 5—No. 2777, aged 8 years, admitted July 13, 1915; died July 14, 1915; shock following traumatic amputation of left leg at hip.
- 6—No. 2810, aged 43 years, admitted July 29, 1915; died August 4, 1915; lobar pneumonia.
- 7—No. 2832, aged 25 years; admitted August 8, 1915; died August 8, 1915; shock following severe contusion of chest and right hyochondrium with rupture of liver.
- 8—No. 2835, aged 18 years; admitted August 9, 1915; died August 9, 1915; crush of pelvis.
- 9—No. 2837, aged 44 years; admitted August 9, 1915; died August 21, 1915; cerebral meningitis.

- 38—No. 3306, aged 16 years; admitted April 15, 1916; died April 16, 1916; eclampsia.
- 39—No. 3315, aged 20 years; admitted April 21, 1916; died May 6, 1916; acute meningitis following fracture of base of skull and fracture of second, third and fourth dorsal vertebrae.
- 40—No. 3327, aged 26 years; admitted April 27, 1916; died May 1, 1916; septicemia following infection of left leg.
- 41—No. 3328, aged 56 years; admitted April 28, 1916; died May 10, 1916; chronic diffuse nephritis complicated by chronic valvular heart disease.
- 42—No. 3337, aged 45 years; admitted May 3, 1916; died May 7, 1916; hypertrophic biliary cirrhosis.
- 43—No. 3342, aged 20 years; admitted May 6, 1916; died May 7, 1916; septic peritonitis following self-induced abortion.

NUMBER OF PATIENTS PER DAY

From June 1, 1915, to June 1, 1916

The following table indicates the number of patients in the Hospital each day, from June 1, 1915, to June 1, 1916, the daily average for the year being 52.

The greatest number of patients in the Hospital on any one day was 66.

The smallest number of patients in the Hospital on any one day was 40.

Day	June	July	August	September	October	November	December	January	February	March	April	May	Total	Average

SUMMARY

From June 1, 1915, to June 1, 1916

During the past year there were 700 patients treated in the wards of the Hospital; 2,751 were treated in the dispensary, making a total of 3,451.

The aggregate number of days patients were treated in the Hospital was 19,102, or an average of 27 days for each patient.

The number of visits of out-patients to the dispensary was 16,385.

The percentage of deaths during the year, excluding those who died within twenty-four hours, or never regained consciousness after admission, was 4 and 86-100 per cent.

Tables of Superintendent's report show that the daily average number of patients was 52.

The average cost of sustenance for each patient was \$1.31 in 1915 and 1916, and the gross cost \$1.45, as will be shown by the following table:

	Average Maintenance per Day	Average Medicine per Day	Average Cost per Day	Average No. of Patients per Day	Total Discharges	Total Admissions	Total Deaths
